II. Independent Auditor's Report

To the Shareholders of JUMBO SA

Report on the Financial Statements

We have audited the accompanying individual financial statements of JUMBO SA, as well as the consolidated financial statements of the Company and its subsidiaries, which comprise the individual and consolidated Statement of Financial Position as at June 30, 2012, and the Statement of Comprehensive Income, changes in equity and cash flows for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these individual and consolidated financial statements in accordance with International Financial Reporting Standards as adopted by European Union, and for such internal control as management determines is necessary to enable the preparation of individual and consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these individual and consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the individual and consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the individual and consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the individual and consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the individual and consolidated financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the individual and consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying individual and consolidated financial statements present fairly, in all material respects, the financial position of the Company and its subsidiaries as at June 30, 2012, and the financial performance and the cash flows of the Company and its subsidiaries for the year then ended in accordance with International Financial Reporting Standards that have been adopted by the European Union.

C. INFORMATION ON THE COMPANY'S AND THE GROUP'S PROSPECTIVE

During a difficult period for the Greek economy, in time of great uncertainty, the Group aims to reiterate its leading position in the retail of toys, baby products, gift items, stationary, etc. related and similar types and to reiterate the growth rate in terms of sales in a positive territory.

The Group in order to achieve these objectives continuously enriches the variety of products within the categories that he operates based on the developments and trends in demand, maintains product prices at competitive levels and advertises its strong brand.

In addition, the Group by using its sound financial structure and infrastructure that has created in the previous years accelerates the implementation of its investment program by adding new stores in Greece and abroad, focusing on areas that in the past had no presence or on areas where it is expected that least competition between new and already established Jumbo stores.

More specific in Greece, a new rented store in Nea Philadelphia (Athens) began to operate in July 2012 of total surface 8ths sqm, while in August began to operate the new rented store in Palaio Faliro (Athens). Moreover, it is expected that until the end of the current financial year will open one owned store in Serres, Greece of total surface of 9ths sqm, one rented store in Thessaloniki of total surface 7,2ths sqm and one more rented in Attica of total surface of 7,5ths sqm.

Moreover, the company evaluated the development of the Internet stores and is proceeding in the construction Jumbo store which will offer products for organizing parties, outdoor games and specialty games on line. The online store is expected to start operating during the second half of the current financial year.

With regard to the international activities of the Group, the investment program continues:

In Bulgaria, subsidiary company «Jumbo EC.B», operated until 30/06/2012 seven stores, three in Sofia, one in Plovdiv, one in Varna, one in Burgas and one in Rousse.

In November 2012 the subsidiary company proceeded with the launch of one more owned store in the city of Sofia of approximately 12 ths sqm total surface area.

In Cyprus, the subsidiary company Jumbo Trading Ltd, has today 3 stores. One in Nicosia, one in Lemessos and one in Larnaka. The company aims to launch one more store in the next financial year 2013/2014.

In Romania, the Group has a plot of total surface 47.000 approximately in Bucharest for future exploitation. The Group has began the preparations in order to launch its first stores in the country in 2014.

D. FINANCIAL RISK MANAGEMENT

The Group is exposed to various financial risks such as market risk (variation in foreign exchange rates, interest rates, market prices etc.), credit risk and liquidity risk. The Group's risk management policy aims at limiting the negative impact on the Group's financial results which results from the inability to predict financial markets and the variation in cost and revenue variables.

The risk management policy is executed by the Management of the Group which evaluates the risks related to the Group's activities, plans the methodology and selects suitable financial products for risk reduction.

The Group's financial instruments include mainly bank deposits, banks overdrafts, trade debtors and creditors, dividends paid and leasing liabilities.

Foreign Exchange Risk

The Group operates internationally and therefore it is exposed to foreign exchange risk, which arises mainly from the U.S. Dollar. This risk mostly derives from transactions, payables in foreign currency. The Company deals with this risk with the strategy of early stocking that provides the opportunity to purchase inventories at more favorable prices while is given the opportunity to review the pricing policy through its main operation activity which is retail sales.

Interest Rate Risk

The risk of interest rate change derives mainly from the long-term borrowings. The Group in order to fulfill its investment plan has already proceeded to the issuance of a Common Bond Loan (24/05/2007) up to the amount of € 145mil on favourable terms.

Other assets and other liabilities are in fix rate while operating revenues are substantially independent of the changes to the prices of the interest rates.

Credit Risk

The main part of the Group's sales concerned retail sales (for which cash was collected), while wholesale sales were mostly made to client with a reliable credit record. In respect of trade and other receivables the Group is not exposed to any significant credit risk exposure. To minimize this credit risk as regards money market instruments, the Group only deals with well-established financial institutions of high credit standing.

Liquidity Risk

The Group manages its liquidity by carefully monitoring scheduled debt servicing payments for long - term financial liabilities as well as cash - outflows due in day - to - day business. The Group ensures that sufficient available credit facilitations exist, so that it is capable of covering the short-term enterprising needs, after calculating the cash inputs resulting from its operation as well as its cash in hand and cash equivalent. The capital for the long-term needs of liquidity is ensured in addition by a sufficient sum of lending capital.

Other Risks

Political and economic factors

Demand of products and services as well as company's sales and final economic results are effected by external factors as political instability, economic uncertainty and decline.

Moreover, factors such as taxes, economic and political changes that can affect Greece as a country is possible to have a negative effect on company's going concern, its financial position and results.

In order to deal with the above risks the Company accelerates its expansion in Greece and in new markets, emphasising in the Bulgarian market, constantly re-engineering its products, emphasising in cost constrain and creating sufficient stock early enough in favourable prices.

Danger of bankruptcy of suppliers

During the last two years and particularly during the last year, the unprecedented recession that affects the economies globally and locally, creates the danger of bankruptcy of some suppliers of the Company. In this case this Company faces the danger of loss of advance payments that has been given for the purchase of products.

The Company in order to be protected from the above danger has contracted collaboration with important number of suppliers where no one represents an important percentage on the total amount of the advance payments.

Sales seasonality

Due to the specified nature of company's products, its sales present high level of seasonality. In particular during Christmas the company succeeds 28% approximately of its annual turnover, while sales fluctuations are observed during months such as April (Easter - 10% of annual turnover) and September (beginning of school period- 10% of annual turnover). Sales seasonality demands rationality in working capital management specifically during peak seasons. It is probable that company's inadequacy to deal effectively with seasonal needs for working capital during peak seasons may burden financial expenses and effect negatively its results and its financial position.

Company's inadequacy to deal effectively with increased demand during these specific periods will probably effect negatively its annual results. Moreover, problems can come up due to external factors such as bad weather conditions, strikes or defective and dangerous products.

Dependence from agents-importers

The Company imports its products directly from abroad as exclusive dealer for toy companies which do not maintain agencies in Greece. Moreover, the company acquires its products from 163 suppliers which operate within the Greek market.

However, the Company faces the risk of losing revenues and profits in case its cooperation with some of its suppliers terminates. Nevertheless, it is estimated that the risk of not renewing the cooperation with its suppliers is inconsiderable due to the leading position of JUMBO in the Greek market. The potential of such a perspective would have a small effect to the Company's size since none of the suppliers represents more than 6% of the Company's total sales.

Competition within industry's companies

The Company is established as market leader within the retail sale of toys and infant supplies market. Company's basic competitors are of lower size in number of sale points as well as in terms of turnover figures. The current status of the market could change in the future either due to the entrance of foreign companies in the Greek market or due to potential strategic changes and retail store expanding of present competitors.

Dependence from importers

70% of company's products originate from China. Facts that could lead to cessation of Chinese imports (such as embargo for Chinese imports or increased import taxes for Chinese imports or political-economic crises and personnel strikes in China) could interrupt the provision of the company's selling points. Such potentiality would have a negative effect to Company's operations and its financial position.

Other external factors

Threat or event of war or a terrorist attack are factors that cannot be foreseen and controlled by the company. Such events can effect the economic, political and social environment of the country and the Company in general.

H. CORPORATE GOVERNANCE STATEMENT FOR THE YEAR 01/07/2011-30/06/2012

(PAR. 3 d ARTICLE 43 a OF THE LAW 2190/1920)

1) Statement on Compliance with the Corporate Governance Code under par. 3 d, Article 43 a of the Law 2190/1920

The Company has adopted the Principles of Corporate Governance, as determined by the existing Greek legislation and the international practices. Corporate Governance, as a set of rules, principles and control mechanisms, on which the company's operation and management are based, aims at transparency to the investment community, as well as ensuring the interests of the investors and of any person involved in its operation.

Based on as of 30.3.2011 decision of its Board of Directors, the Company has adopted the Corporate Governance Code of Hellenic Federation of Enterprises (SEV) for Listed Companies (hereinafter "The Code"). This Code is posted on SEV website, at the following electronic address:

http://www.sev.org.gr/Uploads/pdf/KED_TELIKO_JAN2011.pdf

The Company might proceed to amendments to the Code and Corporate Governance Principles it applies, directly informing the investors at its website www.jumbo.gr

2) Deviation from the Corporate Governance Code

The Company states that it fully complies with the provisions of the Greek relevant legislation, rules and regulations and internal corporate values for development of corporate governance principles it applies and has adapted those defined by the existing institutional framework of corporate governance.

The company does not implement some specific practices that are specifically mentioned below.

PART A - THE BOARD OF DIRECTORS AND ITS MEMBERS

Role and responsibilities of the Board of Directors

- The Board of Directors has not proceeded to establishment of separate committees occupied with the nominations for election to the Board and preparing proposals to the Board regarding the remuneration of executive directors and key executives since the company's policy in relation to such fees

is fixed and formed for more than a decade . (Special practices for listed companies_A.1.2.a)

Size and composition of the Board of Directors

- The Company's Board of Directors is composed of four executive and three non-executive members of which two (2) are independent. (Special practices for listed companies A.2.2.)

Role and profile of the chairman of the Board of Directors

- The Board of Directors does not appoint an independent vice-chairman from among its independent board members, but an executive member, since substantial daily assistance of vice-chairman to the Chairman of the BoD in the exercise of his executive duties is assessed as an issue of overriding importance. (Special practices for listed companies A.3.3. and Special practices for listed companies A.3.4.)

Nomination of BoD members

- The Company has not established a BoD members nomination committee, since following the Company structure and nature of operations the committee in question is not regarded as necessary for the time being . (Special practices for listed companies A.5.4 , A.5.5, A.5.6., A.5.7., A.5.8.).

Functioning of the Board of Directors

- At the beginning of every calendar year, the BoD does not adopt a calendar of meetings and a 12-month agenda, since the Company considers that BoD meetings can be easily held, and that the BoD meets frequently and many times in each fiscal year, when imposed by the Company needs or legislation without any programmed activities. (Special practices for listed companies A.6.1).

- There are no established induction programs for new Board members, nor continuing professional development programs available to other Board members, since the candidates nominated as BoD members are persons with substantial knowledge and abilities as well as high level of organizational - managerial skills. (Special practices for listed companies A.6.5).

- There is no particular provision for supply of sufficient resources to the BoD Committees to facilitate them undertake their duties and engage external professional consultants, since the resources in question are approved on case basis by the Company Management, based on effective needs of the company. (Special practices for listed companies A.6.9).

Board of Directors evaluation

- There is no formally established procedure regarding the evaluation of the performance of the Board and its committees or the BoD chairman performance evaluation procedure led by the independent vice-chairman, if appointed, or by another non-executive board member. The procedure in question is not considered necessary since the particular need is covered based on the organizational structure of the Company (Special practices for listed companies A.7.1).

- The non-executive board members do not convene periodically without the executive member in order to evaluate the latter's performance and discuss their remuneration. (Special practices for listed companies A.7.2)

PART B -INTERNAL CONTROL SYSTEM-AUDIT COMMITTEE

- The audit committee is not provided with special resources for the services of external consultants, since the committee's composition as well as the expertise and professional knowledge of its members facilitate its sound operation. Moreover, the Company examines every case and, should such need be established, provides the necessary resources. (Special practices for listed companies B.1.9)

PART C -REMUNERATION

- There is no remuneration committee, composed entirely of non-executive board members, the majority of whom should be independent, which is responsible for defining the remuneration of the executive and non-executive BoD members and therefore, there are no regulations regarding its duties, frequency of its meetings and other issues in respect of its operation. Till currently, the establishment of such a committee has not been regarded as necessary, given the structure and the nature of operations of

the Company (Special practices for listed companies C.1.6, C.1.7, C.1.8, C.1.9)

PART D –RELATIONS WITH SHAREHOLDERS

No deviations established

3) Main Characteristics of Internal Control and Risk Management System regarding the Preparation of Financial Statements.

The Internal Control System of the Company is a set of policies, procedures, functions, conducts and other elements that characterize the company, which are implemented by the Board, Management and the remaining workforce of the company. The Internal Control System consists of monitoring mechanisms and Internal Controls targeting at the proper operation of the Company. Its purpose is as follows:

- Effective and efficient operation of the company to respond appropriately to risks related to achieving business objectives. Protection of the assets of the company from any misuse or loss, including prevention and disclosure of potential fraud.
- Ensuring the reliability of financial information provided both inside and outside the company.
- Compliance with applicable laws and regulations, including internal corporate policies.

The Company's objective is constant development, improvement and upgrading of the Internal Control System since the environment, in which the company operates, is constantly changing.

The control environment consists of organizational structure, delegation of powers and responsibilities to the Board, integrity, ethical values and Conduct Management, and Policies and procedures for human resources.

The bodies in charge of monitoring compliance with the Internal Audit System are: the Audit Committee and Internal Audit Service. The Audit Committee of the Company has been established following a Board decision, which was approved by the General Meeting on 3.11.2011, and operates under Law 3016/2002 on Corporate Governance and Law 3693/2008 on Harmonization of Greek legislation with Directive 2006/43/EC. The main objective of the Audit Committee is to assist the Board in overseeing the quality, adequacy and effectiveness of internal control and risk management and quality work performance of the company, reviewing and monitoring the issues related to existence and maintenance of objectivity and independence of statutory auditor or audit firm, monitoring the progress of statutory audit of individual and consolidated financial statements, monitoring of financial reporting and any other significant issue at the discretion of the members.

The Internal Audit Service operates in the way prescribed by Law 3016/2002 on corporate governance. It is accountable to the Board through the Audit Committee, by which it is supervised.

The internal audit department operates as an independent and objective advisory service accountable to the Audit Committee. Its responsibilities include evaluating and improving risk management and internal control systems, as well as verifying compliance with the established policies and procedures as defined by the Company Internal Regulations, the applicable laws and legal provisions.

Regarding the issue of Financial Statements, the Company has invested in the purchase of advanced computer systems, developing and maintaining the information based on the company needs. Through a series of safeguards, the systems ensure the fair representation of the financial results for the preparation of financial statements (consolidated and corporate and financial reports Cross-checks are performed and controls are implemented in order to eliminate data concerning intra-group transactions, receivables, liabilities, etc.). Consolidated journal entries are performed and published to the financial statements and information tables contained in the Financial Report.

Financial statements are prepared and published on a quarterly basis (individual and consolidated) in accordance with International Financial Reporting Standards as adopted by the European Union and in accordance with applicable laws and regulations. All financial statements are

approved by the Board of Directors prior to their publication.

The company's management is daily informed on the progress of sales, costs / expenses and other details that define and redefine the strategy and the objectives of the Company, as they have been planned and budgeted accordingly with comparable figures for the previous year and period.

The Group is exposed to various financial risks such as market risk (variation in foreign exchange rates, interest rates, market prices etc.), credit risk and liquidity risk. The company's risk management policy aims at limiting the negative impact on the company's financial results which results from the inability to predict financial markets and the variation in cost and revenue variables.

Risk management policy is executed by the Management of the Group which evaluates the risks related to the Group's activities, plans the methodology and selects suitable derivative products for risk reduction. Analytical reference is made in section D "Financial Risk Management" of the present annual report.

4) Information under (c), (d), (f), (i) and (k) paragraph 1 of Article 10 of Directive 2004/25/EC as at 21 April 2004 regarding takeover bids as long as the company is subject to the above directive.

No takeover bids were effective within the year.

5) Information on the way of functioning of the General Meeting of shareholders and its key authorities, description of shareholders' rights and the way they are exercised.

Based on articles 26, paragraph 2b and 28 A of the CL 2190/20, as amended and supplemented, respectively, by Articles 3 and 6 of Law 3884/2010 and currently effective, the Board ensures that the preparation and conduct of the General Meeting of shareholders facilitate the effective exercise of shareholder rights that shall be timely and fully informed on all matters relating to their participation in the General Meeting, including the agenda and their rights during the General Meeting. The Board uses the Annual General Meeting of shareholders to facilitate the effective and open dialogue within the company.

Taking into consideration all legal requirements of Law 3884/2010, the company ensures that the invitation to the General Meeting of shareholders and relevant information are effectively communicated to the shareholders in Greek and English at least 20 days before the meeting, via the company's website. 3. Accounting Principles Summary

The enclosed financial statements of the Group and the Company (henceforth Financial Statements) with date June 30 of 2012, for the year of July 1st 2011 to June 30th 2012 have been compiled according to the historical cost convention, the going concern principle and they comply with International Financial Reporting Standards (IFRS) as those have been issued by the International Accounting Standards Board (IASB), as well as their interpretations issued by the Standards Interpretation Committee (I.F.R.I.C.) of IASB.

Composition of financial statements according to International Financial Reporting Standards (IFRS) demands the use of accounting estimations and opinions from the Management during the application of accounting principles of the Group. Important acceptances for the application of the accounting methods of the Company are marked wherever it is judged necessary. Estimations and opinions made by the Management are constantly surveyed and are based on experiential facts and other factors, including anticipations for future facts, which are considered predictable under normal circumstances.

In 2003 and 2004, the IASB issued a series of new IFRS and revised International Accounting Standards (IAS), which in conjunction with unrevised IAS's issued by the International Accounting Standards Committee, predecessor to the IASB, is referred to as "the IFRS Stable Platform 2005". The Group applies the IFRS Stable Platform 2005 from 1 July 2005. The transition date for the Group was 1st July 2004.

Basic accounting principles adopted for the preparation of these financial statements have been also applied to the financial statements of 2010-2011 and have been applied to all the periods presented. Amounts on the financial statements of the previous periods have been reclassified so as to be comparable with those of current period, wherever this was considered necessary.

3.1. Changes in Accounting Principles

3.1.1 Review of the changes

The Group has adopted all the new amendments and standards that became obligatory for the fiscal years starting from 1 July 2011. Standards applicable to the Company that have been adopted since 1 January 2012 as well as standards which have been obligatory since 1st July 2011, however not applicable to the Company's activities, are presented in paragraph 3.1.2. Standards and amendments to existing standards that have not been yet in force adopted or still have not been placed in force, or have not been adopted by the EU are presented in paragraph 3.1.3.

3.1.2 Changes in accounting principles

Changes in the accounting principles which have been adopted are as follows:

Amendments to IFRS 7 "Financial Instruments: Disclosures - Transfer of Financial Assets" (effective for annual periods beginning on or after 01/07/2011)

The amendment will allow users of Financial Statements to improve their understanding of transfer transactions of financial assets (for example, securitizations), including understanding the possible effects of any risks that may remain with the entity that transferred the assets. The amendment also requires additional disclosures if a disproportionate amount of transfer transactions are undertaken around the end of a reporting period. The amendment is not expected to affect significantly the Group's financial statements. This amendment was approved by the European Union in November 2011.

IFRS 2 Share based payment: "vesting conditions and cancellations" –Amendment

IASB published final amendments to IFRS 2 Share-based Payment to specify the financial reporting by an entity when it undertakes a share-based payment transaction within the same Group and how these transactions are reported to the separate financial statements of the subsidiaries. The amendment does not apply to the Group.

IAS 24 Related Party Disclosures (revised)

The revised Standard clarifies the definition of a related party and simplifies the disclosure requirements for government related entities. More specifically, it exempts government related entities from providing full details about transactions with other government controlled entities and the government, clarifies and simplifies the definition of a related party and requires the disclosure not only of the relationships, transactions and outstanding balances between related parties, but of commitments as well in both the consolidated and the individual financial statements. The change is approved by the EU and effective for annual periods beginning on or after January 1, 2011. The application of the revised IAS24 is not going to affect the Group's financial statements up to a serious extent.

IFRIC 14 (Amendment) "Prepayments of a Minimum Funding Requirement"

The amendment was made to withdraw the restriction an entity had in recognizing an asset resulting from voluntary prepayments for a benefits program in order to cover its minimum funding requirements. The amendment is applicable for annual periods beginning on or after 1 July 2011 and has been approved by the EU. This interpretation is not applicable to the Group.

IFRIC 19 "Extinguishing Financial Liabilities with Equity Instruments"

This interpretation addresses the accounting by an entity when the terms of a financial liability are renegotiated and result in the entity issuing equity instruments to a creditor to extinguish all or part of the financial liability. This is commonly referred to as a 'debt for equity' swap and has become more common as a result of the financial crisis. Significant diversity had arisen in the accounting for these transactions up until the issue of IFRIC 19. The interpretation is effective for annual periods beginning on or after 1 July 2010. Early application is permitted. This interpretation is not applicable to the Group.

3.1.3 New standards, amendments and interpretations to existing standards that are not yet effective or have no application to the group.

The International Accounting Standards Board (IASB) as well as the International Financial Reporting Interpretations Committee (IFRIC) has already issued a series of new accounting standards and interpretations that is not obligatory to be applied to the presented financial statements. The Group's estimate regarding the effect of these new standards and interpretations is as follows:

IFRS 9 "Financial Instruments" (effective for annual periods beginning on or after 1 January 2015)

On 12/11/2009 IASB issued the new Standard, the revised IFRS 9 "Financial Instruments: Recognition and Measurement" which is the first step in IASB project to replace IAS 39. In October 2010, IASB expanded IFRS 9 to add new requirements for classifying and measuring financial liabilities, derecognition of financial instruments, impairment, and hedge accounting. IFRS 9 defines that all financial assets are initially measured at fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Subsequent measurement of financial assets is made either at amortized cost or at fair value, depending on how an entity manages its financial instruments (its business model) and the contractual cash flow characteristics of the financial assets. IFRS 9 generally prohibits reclassification between categories, however, when an entity changes its business model in a way that is significant to its operations, a re-assessment is required of whether the initial determination remains appropriate. The standard requires all investments in equity instruments to be measured at fair value. However, if an equity investment is not held for trading, an entity can make an irrevocable election at initial recognition to measure it at fair value through other comprehensive income with only dividend income recognized in profit or loss. The current Standard has not been adopted by the EU yet.

IFRS 1 (Amendment) "First-time adoption of International Financial Reporting Standards" - Derecognition exception of the fair value measurement of financial assets or liabilities .

The Amendment removes the use of a fixed transition date (01 January 2004) and replaces it with the actual date of transition to IFRSs'. At the same time, it eliminates the requirements for recognition of transactions that had taken place before the transition date. The amendment is applicable for annual periods beginning on or after 01/07/2011, while earlier adoption is permitted. The amendment will not have impact on the consolidated financial statements of the Group. The amendment does not apply to the Group.

IFRS 1 (Amendment) "First-time adoption of International Financial Reporting Standards" - - Hyperinflationary Economies.

The Amendment provides guidance for reapplying the IFRS's after a period of chronic hyperinflation, due to the fact that the functional currency of an economic is that of a hyperinflationary economy. The amendment is applicable for annual periods beginning on or after 01/07/2011, while earlier application is permitted. The amendment will not have impact on the consolidated financial statements of the Group. This amendment has not been approved by the European Union.

Amendment to IFRS 1 "First-time Adoption of International Financial Reporting Standards" - Government loans (effective for annual periods starting on or after 01/01/2013)

In March 2012, IASB issued amendment to IFRS 1, which gives IFRS first-time adopters the option, on a loan by loan basis, of applying the IFRS requirements retrospectively provided that the necessary information to apply the requirements to a particular government loan was obtained at the time of initially accounting for that loan. The implementation of the amendment will have no impact on the consolidated financial statements of the Group. This amendment has not been adopted by the European Union.

IAS 12- (Amendment) Income Taxes.

IAS 12 requires an entity to measure the deferred tax relating to an asset depending on whether the entity expects to recover the carrying amount of the asset through use or sale. It can be difficult and subjective to assess whether recovery will be through use or through sale when the asset is measured using the fair value model in IAS 40 Investment Property. According to the current amendment recovery of the carrying amount will normally be, through sale. The amendment is applicable for annual periods beginning on or after 01/01/2012 and the implementation of the amendment will be considered if it will have an impact on the consolidated financial statements of the Group. This amendment has not been approved by the European Union.

IFRS 7 (Amendment) "Financial instruments: Disclosures- Transfers of Financial Assets

The amendments will allow users of financial statements to improve their understanding of transfer transactions of financial assets, including understanding the possible effects of any risks that may remain with the entity that transferred the assets. The amendments also require additional disclosures if a disproportionate amount of transfer transactions are undertaken around the end of a reporting period. The amendment is applicable for annual periods beginning on or after 01/07/2011, while earlier adoption is permitted. The amendment will not have impact on the consolidated financial statements of the group. This amendment has not been approved by the European Union.

IFRS 10 "Consolidated Financial Statements", IFRS 11 "Joint Arrangements" and IFRS 12 "Disclosure of Interests in Other Entities", IAS 27 "Separate Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" (effective for annual periods starting on or after 01/01/2013)

In May 2011, IASB issued three new Standards, namely IFRS 10, IFRS 11 and IFRS 12. IFRS 10 "Consolidated Financial Statements" sets out a new consolidation method, defining control as the basis under consolidation of all types of entities. IFRS 10 supersedes IAS 27 "Consolidated and Separate Financial Statements" and SIC 12 "Consolidation – Special Purpose Entities". IFRS 11 "Joint Arrangements" sets out the principles regarding financial reporting of joint arrangements participants. IFRS 11 supersedes IAS 31 "Interests in Joint Ventures" and SIC 13 "Jointly Controlled Entities – Non-Monetary Contributions by Venturers". IFRS 12 "Disclosure of Interests in Other Entities" unites,

improves and supersedes disclosure requirements for all forms of interests in subsidiaries, under common audit, associates and non-consolidated entities. As a result of these new standards, IASB has also issued the revised IAS 27 entitled IAS 27 “Separate Financial Statements” and revised IAS 28 entitled IAS 28 “Investments in Associates and Joint Ventures”. The new standards are effective for annual periods beginning on or after 01/01/2013, while earlier application is permitted. The Group will assess the impact of the new standards on its financial statements. The Standards have not been adopted by the European Union.

IFRS 13 «Fair Value Measurement»

The new standard defines fair value, sets out in a single IFRS a framework for measuring fair value and requires disclosures about fair value measurements. The measurement and disclosure requirements of IFRS 13 apply when another IFRS requires or permits the item to be measured at fair value. IFRS 13 does not determine when an asset, a liability or an entity’s own equity instrument is measured at fair value. Neither does it change the requirements of other IFRSs regarding the items measured at fair value and makes no reference to the way the changes in fair value are presented in the Financial Statements.

The amendment is effective for annual periods beginning on or after 1 January 2013 and earlier application is permitted. The implementation of the amendment is expected to affect the Group Financial Statements. This amendment has not been approved by the European Union.

IAS 19 (Amendment) «Employee Benefits»

The amendment to the standard removes the option of recognition of profit and loss under «corridor» method. Moreover, changes from revaluation of assets and liabilities arising from a defined benefit plan will be presented in the statement of other comprehensive income. There will be also provided additional disclosures on defined benefit plans regarding the defined benefit plans characteristics and the risks to which the providers are exposed under their participation in the aforementioned plans.

The amendment is effective for annual periods beginning on or after 1 January 2013 and earlier application is permitted. The implementation of the amendment is not expected to affect the Company Financial Statements. This amendment has not been approved by the European Union.

IAS 1 (Amendment) «Presentation of Financial Statements»

The amendments to IAS 1 require that the entities, preparing financial statements in compliance with IFRS, shall present the items in the statement of other comprehensive income based on whether they are potentially reclassifiable to profit or loss subsequently to facilitate harmonization with US GAAP.

The amendment is effective for annual periods beginning on or after 1 July 2012 and earlier application is permitted. The implementation of the amendment is not expected to affect the Company Financial Statements. This amendment has not been approved by the European Union.

Amendments to IAS 32 “Financial Instruments: Presentation” - Offsetting financial assets and financial liabilities (effective for annual periods starting on or after 01/01/2014)

In December 2011, IASB issued amendments to IAS 32 “Financial Instruments: Presentation”, which provides clarification on some requirements for offsetting financial assets and liabilities in the statement of financial position. The amendment is effective for annual periods beginning on or after 01/01/2014 and earlier application is permitted. The Group will assess the impact of the amendment on its consolidated and separate financial statements. This amendment has not been adopted by the European Union.

Amendments to IFRS 7 “Financial Instruments: Disclosures” - Offsetting Financial Assets and Financial Liabilities (effective for annual periods starting on or after 01/01/2013)

In December 2011, IASB published new requirements for disclosures that enable users of Financial Statements to make better comparison between IFRS and US GAAP based financial statements. The amendment is effective for annual periods beginning on or after 01/01/2013. The Group will assess the impact of the amendment on its consolidated and separate financial statements. This amendment has not been adopted by the European Union.

IFRIC 20 “Stripping Costs in the Production Phase of a Surface Mine” (effective for annual periods starting on or after 01/01/2013)

In October 2011, IASB issued IFRIC 20. The Interpretation clarifies the requirements for accounting for stripping costs associated with waste removal in surface mining, including when production stripping costs should be recognized as an asset, how the asset is initially recognized, and subsequent measurement. The interpretation is effective for annual periods beginning on or after 1 January 2013 and earlier application is permitted. The interpretation is not applicable to the Group’s operations. This interpretation has not been adopted by the European Union

Annual Improvements 2009–2011 Cycle (issued in May 2012 – the amendments are effective for annual periods starting on or after 01/01/2013)

In May 2012, IASB issued Annual Improvements 2009–2011 Cycle, a collection of amendments to 5 International Financial Reporting Standards (IFRSs), as its latest set of annual improvements. The amendments is not expected to affect significantly Group’s financial statements. These amendments have not been adopted by the European Union.

Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance (Amendments to IFRS 10, IFRS 11 and IFRS 12) (effective for annual periods starting on or after 01/01/2013)

In June 2012 IASB issued Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance (Amendments to IFRS 10, IFRS 11 and IFRS 12) to clarify the transition guidance in IFRS 10 Consolidated Financial Statements. The amendments also provide additional transition relief in IFRS 10, IFRS 11 Joint Arrangements and IFRS 12 Disclosure of Interests in Other Entities, limiting the requirement to provide adjusted comparative information to only the preceding comparative period. Furthermore, for disclosures related to unconsolidated structured entities, the amendments will remove the requirement to present comparative information for periods before IFRS 12 is first applied. The Group will assess the impact of the amendment on its financial statements. This amendment has not been adopted by the European Union.

3.2 Significant accounting judgments, estimations and assumptions

The preparation of financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, as well as the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Estimates and judgments are based on experience from the past as well as other factors including expectations for future events which are considered reasonable under specific circumstances while they are reassessed continuously with the use of all available information.

Judgments

The main judgments made by the management of the Group (apart from those involving estimations which are presented below) and that have the most significant effect on the amounts recognized in the financial statements mainly relate to:

- **Classification of investments**

Management decides on acquisition of an investment whether it should be classified as held to maturity, held for trading, carried at fair value through income statement, or available for sale. For those deemed to be held to maturity management ensures that the requirements of IAS 39 are met and in particular the Group has the intention and ability to hold these to maturity. Jumbo SA classifies investments as trading if they are acquired primarily for the purpose of making a short term profit. Classification of investments as fair value through income statement depends on how management monitors the performance of these investments. When they are not classified as held for trading but have readily available reliable fair values and the changes in fair values are reported as part of profit or loss in the management accounts,

they are classified as fair value through income statement. All other investments are classified as available for sale.

- **Recovery of accounts receivable,**

When there is objective evidence that the Group is unable to collect all the amounts owed based on the contractual Receivables, a provision for that has to be made. In the event that the amortized cost or the cost of a financial asset exceeds the present value, then this asset is valued at its recoverable amount, i.e. at the present value of the future cash flows of the asset, which is calculated using the real initial interest rate. The relevant loss is immediately transferred to the period's statement of total comprehensive income account.

- **inventory**

At the statement of financial position date, inventories are valued at the lower price between the price of acquisition cost and net liquidation price. Net liquidation price is the estimated sales price during the normal course of the company's business .

- **Whether a lease entered into with an external lessor is considered to be an operational lease or a financial lease.**

Estimates and assumptions

Certain amounts included in or affecting our financial statements and related disclosure must be estimated, requiring us to make assumptions with respect to values or conditions which cannot be known with certainty at the time the financial statements are prepared. A "critical accounting estimate" is one which is both important to the portrayal of the company's financial condition and results and requires management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Group evaluates such estimates on an ongoing basis, based upon historical results and experience, consultation with experts, trends and other methods considered reasonable in the particular circumstances, as well as our forecasts as to how these might change in the future.

- **Income taxes**

The Group and the company are subject to income taxes in numerous jurisdictions. Significant estimates are required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group and the company recognise liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

- **Provisions**

Doubtful accounts are reported at the amounts likely to be recoverable. The estimation about the amounts to be recovered is a result of analysis as well as the group's experience on the possibility of bad receivables. As soon as it is notified that a particular account is subject to a risk over and above the normal credit risk (e.g., low creditworthiness of customer, dispute as to the existence or the amount of the claim, etc.), the account is analyzed and recorded as a bad collective as if circumstances indicate the receivable is uncollectible.

- **Contingencies**

The Group is involved in litigation and claims in the normal course of operations. Management is of the opinion that any resulting settlements would not materially affect the financial position of the Group as at June 30, 2012. However, the determination of contingent liabilities relating to the litigation and claims is a complex process that involves judgments as to the outcomes and interpretation of laws and regulations.

▪ **Useful life of depreciated assets**

The company examines the useful life of the depreciated assets for each period. At the 30th of June 2012, it is estimated that the useful life represents the predictable usefulness of the assets.

Changes in the judgments or interpretations may result in an increase or decrease in the Company's contingent liabilities in the future.

4. Main accounting principles

Important accounting policies which have been used in the compilation of these consolidated financial statements are summarised below.

It is useful to be marked, as it was analytically reported above in paragraph 3.2 that accounting estimates and affairs are used in the compilation of financial statements. Despite the fact that these estimates are based on the administration's better knowledge of the current issues and energies, the real results are likely to differ finally from what has been estimated.

4.1 Segment Reporting

In terms of geography the Group operates through a sales network developed in Greece, Cyprus and in Bulgaria. The above sectors are used from the company's management for internal information purposes. The management's strategic decisions are based on the readjusted operating results of every sector which are used for the measurement of productivity.

4.2 Consolidation basis

Subsidiary companies: Subsidiary companies are all companies managed and controlled, directly or indirectly, by another company (parent) either through the possession of the majority of shares of the company in which the investment was made, or through its dependency on the know-how provided by the Group. Namely, subsidiary companies are the ones controlled by the parent company. JUMBO S.A. obtains and exercises control through voting rights. The existence of any potential voting rights exercisable upon the preparation of the financial statements is taken into consideration to establish whether the parent company exercises control over the subsidiaries.

Subsidiary companies are fully consolidated based on the acquisition method as from the date control over them is obtained and cease to be consolidated as from the date such control no longer exists.

The acquisition of a subsidiary company by the Group is consolidated through the acquisition method. The cost value of a subsidiary is the fair value of the assets given, of shares issued and liabilities undertaken as at the date of the exchange, plus any costs directly associated with the transaction. Individual assets items, liabilities and contingent liabilities acquired in a business combination are calculated upon the acquisition at their fair values regardless of the participation rate.

The cost of acquisition other than the fair value of the separate items acquired is recorded as goodwill. If total acquisition cost is lower than the fair value of separate items acquired, the difference is recognized directly to statement of total comprehensive income.

In particular for business combinations effected prior to the Group's transition date to IFRS (30 June 2004) the exception in IFRS 1 was used and the acquisition method was not applied retrospectively. In the context of the above exception the Company did not re-calculate the cost value of subsidiaries acquired before the date of transition to IFRS, nor the fair value of acquired assets items and liabilities as at the date of acquisition.

Consequently the negative goodwill recognized as at the transition date was based on the exception of IFRS 1 and due to the fact that, according to the previous accounting principles, it had been presented as a deduction from equity, the amount of goodwill was offset against profits carried forward of the Group. Intercompany transactions, balances and non realized profits from transactions between the companies of the Group are set off in the consolidated financial statements. Non realized losses are also set off except if the transaction shows indication of impairment of the transferred asset.

The accounting principles of the subsidiaries have been adjusted to be in conformity to the ones adopted by the Group.

In the financial statements of the parent entity investments in subsidiary companies are evaluated at their cost value which constitutes the fair value of the price reduced by direct expenses related to the investment.

4.3 Structure of the Group

The companies included in the full consolidation of JUMBO S.A. are the following:

WESTLOOK SRL	100% Indirect	Romania	Full Consolidation

During the current year, the structure of the Group hasn't change.

4.4 Functional currency, presentation currency and conversion of foreign currency

Items or transactions in financial statements of the Group's Companies are translated with the currency of the primary economic environment in which the Group operates (functional currency). Consolidated financial statements are presented in euro which is the functional currency and the presentation currency of the parent Company.

Transactions in foreign currency are converted to the functional currency at rates applicable as at the date of transactions. Gains and losses from foreign exchange differences which arise from settling these transactions during the period and from the conversion of monetary items denominated in foreign currency at applicable rates as at the statement of financial position date, are recognized in profit or loss account. Foreign exchange differences from non monetary items measured at fair value, are considered a part of fair the value and consequently they are recognized in a manner consistent with the recognition of differences in fair value.

Activities of the Group abroad in foreign currency (which are an integral part of the parent company's activities) are converted to the operating currency at the rates applicable as at the transactions' date, while assets and liabilities pertaining to activities abroad, arising during the consolidation, are converted to euro at exchange rates applicable as at the statement of financial position date.

Financial statements of companies which are included in the consolidation, which are initially presented in a currency other than the presentation currency of the Group have been converted to euro. Assets and liabilities have been translated in euro at the closing rate as at the statement of financial position date. Income and expenses have been converted to the presentation currency of the Group at the average

exchange rate applicable in the relevant period. Any differences arising from that procedure have been debited / (credited) to a reserve of exchange differences in equity (translation reserve).

4.5 Property plant and equipment

Property plant and equipment are disclosed in financial statements at their cost or deemed cost estimated based on fair values as at transition dates less accumulated depreciation and any impairment. Cost includes all expenses directly associated with the acquisition of assets.

Subsequent expenses are recognized to increase the book value of tangible assets or as a separate fixed asset only to the extent that those expenses increase future economic benefits expected to flow from the use of the fixed asset and their cost can be reliably estimated. Repair and maintenance costs are recognized in the statement of total comprehensive income when they incur.

The depreciation of other items in tangible assets (other than land which is not depreciated) is calculated based on a straight line basis during their useful life which has been estimated as follows:

Buildings	30 - 35 years
Mechanical equipment	5 - 20 years
Vehicles	5 - 10 years
Other equipment	4 - 10 years
Computers and programs	3 - 5 years

Residual values and useful lives of tangible assets are reviewed as at every statement of financial position date. When book values of tangible assets exceed their recoverable value, the difference (impairment) is directly recorded in statement of total comprehensive income as an expense.

At the sale of tangible assets, differences between the price received and their book value are recognized in the statement of total comprehensive income.

Rights to use tangible assets: Rights to exploit tangible assets allotted in the context of contracts for construction or exploitation of works (counterbalancing benefits) are evaluated at their cost value, fair value as at the date they were allotted less depreciation.

Software: Software licenses are evaluated at cost value less depreciation and any impairment losses.

4.6 Investments in Property

Investments in Property are the investments that concern all those properties (in which are included the ground, the buildings or the parts of buildings or both of them) that are owned (via market or via financing lease) by the Group, in order to acquire rents from their hiring, or for the increase of their value (aid of capital), or both, and they are not owned for: a. being utilized in the production or in the supply of materials / services or for administrative aims, and b. sale at the usual course of the company.

Investments in Properties are measured initially in the cost of acquisition, including also the expenses of transaction. The group has selected after the initial recognition, the method of cost and measures the investments according to the demands of IAS 16 for this method.

Transfers to the domain of the investments in properties take place only when there is a change of their use, that is proved by the completion of the self use from the Group, the construction or the exploitation of a operational lease to a third person.

Transfers of property from the domain of investments to properties take place only when there is a change of their use, that is proved by the commencement of the self use by the Group or by the commencement of the exploitation aiming at the sale.

An investment in properties is written off (written off from the statement of financial position) during the disposal or when the investment is being withdrawn permanently from the use and future financing profits are not expected from its disposal.

The profits or damages that arise from the withdrawal or disposal of the investment in property, concern the difference between the net-income of the disposal and the book value of the asset, they are recognized in the results at the period of withdrawal or disposal.

4.7 Impairment of assets

Assets which are depreciated are tested for impairment if there is any indication that their book value will not be recovered. The recoverable amount is the higher amount between the fair value of the asset (net selling price less costs to sell) and value in use. The loss incurred due to the impairment of assets is recognized by the company if the book value of those items (or of the Cash Generating Units) is higher than its recoverable amount.

Net selling price is considered the amount from the sale of the asset in the context of a bi-lateral transaction which the parties are fully aware of and enter willingly after the deduction of any additional direct cost for sale of the asset, while value in use is the present value of estimated future cash flows expected to flow in the business from the use of the asset and from its sale at the end of its estimated useful life.

4.8 Financial instruments

A financial instrument is every contract creating a financial asset in one company and a financial liability or a security of a participating nature in another company.

Financial items measured at fair value through the statement of total comprehensive income

They are financial assets fulfilling any of the requirements below:

- Financial assets held for trading purposes (including derivatives except those which are definite and effective hedging instruments those acquired or created in order to be sold or repurchased and finally those forming part of a portfolio consisting of recognized financial instruments).
- Upon the initial recognition the company designates it as an instrument measured at fair value, recognizing fair value changes in the statement of total comprehensive income for the year.
- In the statement of financial position of the Group transactions and measurement at fair values of derivatives are disclosed in separate accounts in Assets and Liabilities called "Derivative Financial instruments". Changes in fair value of derivatives are recorded in the statement of total comprehensive income.

To the date those statements were presented, the Group did not hold such financial instruments.

Loans and receivables

They include non derivative financial assets with fixed or specified payments which are not traded in active markets. This category (loans and receivables) does not include:

- Receivables from advance payments for purchase of goods and services,
- Receivables pertaining to taxes which have been imposed by the state,
- Anything not covered in a contract so that it gives the company the right to receive cash or other financial fixed items.

The loans and receivables valued at their amortized cost using the method of the effective interest rate, less the provision for impairment. Any change in the value of loans or receivables is recognized in the income statement when the loans and the receivables are written off or their value is reduced and when they are amortized

Loans and receivables are included in current assets apart from those with expiration periods longer than 12 months as from the statement of financial position date. The latter are included in non current assets.

Held to maturity investments

It includes non derivative financial assets with fixed or specified payments and specific expiration which the Group intends and is able to keep until their expiration. The Group did not hold any investments of this category.

Financial assets available for sale

It includes non derivative financial assets which are either placed directly under this category or they can not be placed under any of the above categories. Subsequently financial assets available for sale are measured at their fair value and relevant profits or losses are recorded in a reserve of capital and reserves until those items are sold or impaired.

The Group on June 30, 2012 had no such investments.

4.9 Inventory

As at the statement of financial position date stocks are evaluated at the lower of cost and net realizable value. Net realizable value is the estimated sale price in the ordinary course of the company's operations less any relevant sale expenses. The cost of stocks does not include any financial expenses. The cost value of stocks is determined based on average annual weighted price.

4.10 Trade receivables

Most sales of the Group are in retail. Trade debtors are initially recorded at their fair value while any balances beyond ordinary credit limits are measured at unamortized cost according to the method of the effective interest rate, less any provision for impairments. If the unamortized cost or the cost of the financial instrument exceeds current value, this item is evaluated at its recoverable amount namely at the present value of future flows of the asset, which is calculated based on the actual initial interest rate. The relevant loss is transferred directly to the statement of total comprehensive income for the year. Impairment losses, namely when there is objective evidence that the Group is in no position to collect all the amounts owed based on contract terms, are recognized in statement of total comprehensive income.

4.11 Cash and cash equivalents

Cash and cash equivalents include cash at bank and in hand as well as short term investments of high liquidation, products in money market and bank deposits. The Group considers time deposits and high liquidation investments with initial expiration shorter than three months to be cash equivalents.

4.12 Share capital

Share capital is determined using the nominal value of shares that have been issued. Common shares are classified in equity. A share capital increase through cash includes any share premium during the initial share capital issuance.

Expenses made for issuance of shares are disclosed after the subtraction of relevant income tax reducing the product of the issuance subtracted from equity. Expenses associated with the issuance of shares for the acquisition of companies are included in the cost value of the company acquired.

Retained earnings include current and previous period's results as disclosed in the income statement.

4.13 Financial Liabilities

The Group's financial liabilities comprise of bank loans and overdraft accounts, trade and other payables and financial leases. The Group's financial liabilities (apart from the loans) are illustrated in the "Long term financial liabilities" account of the statement of financial position as well as in the "Other trade payables" account.

Financial liabilities are recognized when the company becomes a party to the contractual agreements of the instrument and derecognized when the Group is discharged from the liability or the liability is cancelled or expired.

Interest expenses are recognized as an expense in the "Financial Expenses" line of the Income Statement.

Financial leases liabilities are measured at their initial cost, net of the amount of the financial payments capital.

Trade payables are recognized initially at their nominal value and are subsequently measured at their unamortized cost, net of settlement payments. Shareholder's dividends are included in the "Other short term financial liabilities" account, when the dividend is approved by the Shareholders' General Meeting.

Profit and loss is recognized in the Income Statement when the liabilities are written off and through amortization.

4.14 Loans

Loan liabilities are initially recorded at the cost reflecting their fair value reduced by the relevant expenses for contracting the loan. After the initial recognition they are measured at the unamortized cost based on the effective interest rate method. Borrowing costs are recognized as expenses in the period in which they occur.

Loans in foreign currency are measured at the closing rate at the statement of financial position date, except for those loans for which the exchange rate regarding the conversion and payment has been specified upon their initiation.

4.15 Convertible bond loans

Based on IAS 32, the liability is set based on the present value of all contracted future cash flows, discounted at a market interest rate in that period for similar loans with no right for conversion. The rest part, if any, is recognized in equity representing the incorporated right for conversion of the liability in equity of the issuer.

After the allocation of the value of the bond, any profits or losses associated with the liability are recognized in the statement of total comprehensive income, while the value related to equity is recognized as equity instrument.

In case of conversion the difference between the carrying amount of the loan and the share capital increase is recognized in equity and specifically in share premium account.

4.16 Income & deferred tax

The period's charge with income tax consists of current taxes and deferred taxes, namely taxes or tax relieves related to financial benefits arising in the period but which have already been allocated or will be allocated by the tax authorities to different periods and provisions regarding finalization of income tax liabilities after relevant tax inspections for uninspected financial years. Income tax is recognized in statement of total comprehensive income with the exception of tax pertaining to transactions directly recorded in equity which is also recognized in equity.

Current income tax includes current liabilities or receivables from the tax authorities pertaining to tax payable on taxable income of the period and any additional income tax pertaining to previous years.

Current taxes are calculated according to tax rates and tax laws applied for the accounting periods to which they pertain, based on taxable profit for the year. Changes in current tax items in assets or liabilities are recognized as a part of taxable expenses in the statement of total comprehensive income.

Deferred income tax is determined based on the liability method arising from temporary differences between the carrying amount and the tax base for items in assets and liabilities. Deferred income tax is not computed if it derives from the initial recognition of an item in assets or liabilities in transaction, outside a business combination, which when it took place did not affect the accounting nor the tax profit or loss.

Deferred tax assets and liabilities are measured based on the tax rates expected to be applied in the period during which the asset or liability will be settled considering the tax rates (and tax laws) in force up to the statement of financial position date. If it is not possible to specify the time of reversal of temporary differences, the tax rate applied is the one being in force in the year subsequent to the statement of financial position date.

Deferred tax assets are recognized to the extent that there will be a future taxable profit for the use of the temporary difference creating the deferred tax receivable.

Deferred income tax is recognized for the temporary differences arising from investments in subsidiary and affiliated undertakings, unless the reversal of temporary differences is controlled by the Group and it is unlikely that temporary differences be reversed in the foreseeable future.

Most changes in deferred tax assets or liabilities are recognized as a part of tax expenses in statement of total comprehensive income. Changes in assets or liabilities affecting equity instruments are recognized directly in the Group's equity.

4.17 Liabilities for benefits to personnel retiring or leaving service

Current benefits

Current benefits to personnel (other than benefits due to termination of employment) in cash and in kind are recognized as an expense as soon as they are accrued. Any unpaid amount is recorded as a liability and if the amount paid exceeds the amount of benefits, the company recognizes the exceeding amount as an asset (prepaid expense) only to the extent that the prepayment will result in a reduction of future payments or in a refund.

Benefits after termination of employment or retirement

Benefits after termination of employment include pensions or benefits (life insurance and medical insurance) provided by the company upon retirement as a reward for the employees' services. Consequently they include plans for defined contributions as well as plans for defined benefits. Accrued cost of defined benefit plans is recognized as an expense in the period to which it pertains.

Defined contribution plan

Based on the defined contribution plan the liability of the company (legal or constructive) is limited to the amount that has been agreed to be contributed to the fund managing contributions and providing benefits. Consequently the amount of benefits received by the employee is determined by the amount paid by the company (or the employee as well) and the paid investments of those contributions.

Contribution paid by the company in a plan of defined contributions is recognized either as a liability after the deduction of the contribution paid, or as an expense.

Defined benefit plan

The liability recognized in the statement of financial position in connection with defined benefit plan is the present value of the liability for the defined benefits less the fair value of assets in the fund (if any) and changes arising from any actuarial gain or loss and past service cost. The specific benefit due is calculated annually by an independent actuarial expert based on the projected unit credit method. For the prepayment the interest rate of long term bonds of the Greek Government is applicable.

Actuarial gains and losses are liabilities regarding the benefit provided by the company and an expense recognized in profit and loss. Amounts deriving from adjustments based on historical data which are above or below the margin of 10% of the accumulated liability are recorded in statement of total comprehensive income in the expected average insurance period of the participants in the plan. The past service cost is recognized directly in statement of total comprehensive income unless changes in the plan depend on the remaining years of services of the employees. In that case the past service cost is recognized in statement of total comprehensive income based on a straight line basis during the maturing period.

Benefits for termination of employment

Benefits due to termination of employment are paid when employees leave the company before retirement. The Group records these benefits when it has a commitment or when it terminates the employment of employees according to a detailed plan for which there is no possibility of retirement, or when it offers these benefits as a motive for voluntary retirement. When these benefits are payable in

periods exceeding twelve months from the date of the statement of financial position, they must be discounted based on the yield of high quality corporate bonds or government bonds.

In the case of an offer that is made to encourage voluntary redundancy, the valuation of benefits for employment termination must be based on the number of employees that are expected to accept the offer.

In case of an employment termination where there is inability to assess the number of employees to use such benefits, a disclosure for a contingent liability is made but no accounting treatment is followed.

4.18 Provisions and contingent liabilities / assets

Provisions are recognized if the Group has current legal or constructive obligations as a result of past events, their liquidation is possible through outflows of resources and the exact amount of the liability can be reliably measured. Provisions are reviewed as at each statement of financial position date and they are adjusted so that they reflect the present value of the expense expected to settle the liability.

Contingent liabilities are not recognized in the financial statements but they are disclosed, unless the possibility of outflows of sources which incorporate financial benefits is minimum. Contingent assets are not recognized in the financial statements but they are communicated if the inflow of financial benefits is possible.

4.19 Leases

Company of the Group as a Lessee

Leases of fixed assets during which all risks and rewards associated with the ownership of an asset are transferred to the Group, irrespectively of whether the ownership title of that item is finally transferred or not, are designated as financial leases. Those leases are capitalized upon the commencement of the lease at the lower of the fair value of the fixed asset and the present value of minimum lease payments.

Every lease is allocated between the liability and financial expenses so that a fixed interest rate can be achieved for the remaining financial liability. Respective liabilities from leases, net of financial expenses are disclosed in liabilities. The part of the financial expense pertaining to financial leases is recognized in the year's results during the lease. Fixed assets acquired through a financial lease are depreciated in the shortest period between the useful life of fixed assets and the duration of their lease except for cases when the fixed asset is certain to come to the ownership by the Group after the end of the leased period. In those cases the fixed asset is depreciated based on estimates of its useful life.

Leasing agreements based on which the lessor transfers the right for use of an item in assets for an agreed period without transferring the risks and rewards of the owner of the fixed asset are classified as operating leases. Payments made for operating leases (net of any motives offered by the lessor) are recognized in results on a proportionate basis during the lease.

Company of the Group as a lessor

Fixed assets which are leased based on operating leases are included in tangible assets of the statement of financial position. They are depreciated during their expected useful life on a basis consistent with similar privately-owned tangible assets. The income from rent (net of any incentives given to the lessees) is recognized on a straight line basis during the period of the lease.

4.20 Recognition of revenue and expenses

Revenue

Revenue is recognized when is probable that the economic benefits will flow to the financial entity and the revenue can be reliably measured.

Revenue includes the fair value of goods sold and services provided net of VAT, discounts and returned items. The amount of revenue is considered reliably measured, when all possible burdens related to the sale have been resolved. Intercompany income in the Group is fully set off. Income is recognized as follows:

- **Sales of goods:** sales of goods are recognized when the Group delivers goods to clients, goods are accepted by clients and the collection of the receivable is reasonably secured.

- **Income from interest:** income from interest is recognized based on time and the effective interest rate. When there is an impairment of receivables, their book value is reduced to the recoverable amount which is the present value of expected future cash flows discounted at the initial effective interest rate. Subsequently interest is calculated at the same interest rate on the impaired (book) value.
- **Dividends:** dividends are considered income when the right for their collection is established.

Expenses

Expenses are recognized in results on an accrued basis. Payments made for operational leases are transferred to results as expenses at the time the lease is used. Expenses from interest are recognized on an accrued basis.

4.21 Distribution of dividends

The distribution of dividends to the shareholders of the parent company is recognized as a liability in the consolidated financial statements as at the date the distribution is approved by the General Meeting of the shareholders.

5. Notes to the Financial Statements

5.1 Segment Reporting

In terms of geography the Group operates through a sales' network developed in Greece, Cyprus and in Bulgaria. The above sectors are used from the company's management for internal information purposes. The management's strategic decisions are based on the readjusted operating results of every sector which are used for the measurement of productivity.

The activities of the Group which don't fulfill the criteria and the qualitative limits of IFRS 8 in order to set them as operating segments are presented as "Others". In the "Others", finance costs and finance income are included as well as other non operating results which can't be divided because they concern the total activity of the Group.

At the segment Greece the Company's management also monitors the sales from Greece to FYROM based on the commercial agreement with the independent customer Veropoulos Dooel and the sales from Greece to Albania based on the commercial agreement with the independent customer Kind Zone Sh.p.k. Total sales of the Company to FYROM and Albania for the period 01/07/2011-30/06/2012 reached the amount of 5.459ths euro.

5.8 Property plant and equipment

a. Information on property plant and equipment

The Group re-estimated the useful life of fixed assets as at the date of the IFRS first time adoption based on the actual conditions under which fixed assets are used and not based on taxation criteria.

According to Greek taxation laws the Company as at 31/12/2008 adjusted the cost value of its buildings and land. For IFRS purposes that adjustment was reversed because it does not fulfill the requirements imposed by IFRS.

Based on IFRS 1 the Group had the right to keep previous adjustments if the latter disclosed the cost value of fixed assets which would be estimated according to IFRS. The management of the Group estimates that values as disclosed as at the transition date are not materially far from the cost value which would have been estimated as at 30/6/2004 if IFRS had been adopted.

Based on the previous accounting principles there were formation accounts (expenses for acquisition of assets, notary and other expenses) which were depreciated either in a lump sum or gradually in equal amounts within five years. Based on IFRS and the Company's estimates those items increased the cost value of tangible assets, and their depreciation was re-adjusted based on accounting estimates made on the fixed assets charged (re-adjustment of useful life of tangible assets).

b. Depreciation

Depreciation of tangible assets (other than land which is not depreciated) are calculated based on the fixed method during their useful life which is as follows:

Buildings	30 - 35 years
Mechanical equipment	5 - 20 years
Vehicles	5 - 10 years
Other equipment	4 - 10 years
Computers and software	3 - 5 years

c. Acquisition of Tangible Assets

The net investments for the acquisition of assets for the company for the financial year 01/7/2011-30/06/2012 reached the amount of € 42.283 thousand and for the Group € 53.581 thousand. On 30/06/2012 the Group had agreements for construction of buildings-civil works of € 8.030 thousand and the Company of €961 thousand.

5.13 Trade debtors and other trading receivables

The company has set a number of criteria to provide credit to clients which generally depend on the size of the client activities and an estimation of relevant financial information. As at every statement of financial position date all overdue or doubtful debts are reviewed so that it is decided whether it is necessary or not to make a relevant provision for doubtful debts. Any deletion of trade debtors' balances is charged to the existing provision for doubtful debts. Credit risk arising from trade debtors and checks receivable is limited given that it is certain they will be collected and they are appropriately liquidated.

5.18 Liabilities for pension plans

Accounts in tables below are calculated based on financial and actuarial assumptions and they are set based on the Projected Unit Credit Method. According to that method, benefits corresponding to full years of service as at the measurement date are treated separately from expected benefits in the year subsequent to the measurement date (future service). The calculations take into account the amounts of compensation for retirement required by law 2112/20 and information regarding active employees in June of 2012.

To perform the calculations we had to make assumptions regarding information affecting the results of the measurement such as the discount interest rate and future increase of salaries and wages. Those assumptions were made in accordance with IAS 19 and further to the agreement of the company's management.

That liability as at 30/6/2012 is analyzed as follows:

01.01.2010-31.12.2010
01.01.2011-31.12.2011

The Company has been inspected by the tax authorities until 30.06.2009. The fiscal year that has not had a tax audit is the one ended on 30.06.2010, on 30.06.2011 and 30.06.2012. For the financial year that ended on 30.06.2011 the company has been tax audited based on POL 1159/26.7.2011. The finalization of the tax-audit from the Ministry of Finance is currently pending. For the financial year 2011/2012 the company is been tax-audited by the Auditors in accordance with the provisions of Article 82 par 5 N. 2238/1994. This audit is in progress and the related tax certificate will be granted after the publication of the year's 2011/2012 financial statements.

During financial year ended at 30.06.2012 the tax audit of the subsidiary company JUMBO TRADING LTD which operates in Cyprus has been concluded successfully until 31.12.2009 according to the Cypriot tax authorities. The tax audit did not resulted to incremental taxes and penalties. The subsidiary company JUMBO TRADING LTD prepares its financial statements in compliance with IFRS and consequently it charges its results with relevant provisions for uninspected tax years, whenever necessary. It is noted that due to the fact that the Cypriot tax authorities operate in a different status, and due to the fact that there were no tax differences after the last tax audit control, no provision for further tax liabilities has been done by the company.

The subsidiary company JUMBO EC.B LTD commenced its operation on 07.12.2007 and has had a tax audit imposed by the Bulgarian Tax Authorities, up to 31.12.2006. The financial years that have not had a tax audit are 01.01.2007-31.12.2007, 01.01.2008-31.12.2008, 01.01.2009-31.12.2009, 01.01.2010-31.12.2010 and 01.01.2011- 31.12.2011. It is noted that due to the fact that the local tax authorities operate in a different status, and the fact that the company commenced its operation on December 2007 conducting provisions for additional taxes from potential tax inspection was not considered necessary.

The subsidiary companies JUMBO EC.R S.R.L and WESTLOOK SRL in Romania, ASPETTO LTD in Cyprus, have not yet started their commercial activity and, therefore, no issue of un-audited fiscal years and further tax liabilities arises .

9. Number of employees

At 30 June 2012 the Group occupied 3.440 individuals, from which 3.306 permanent personnel and 134 seasonal personnel while the average number of personnel for the current financial year i.e. from 01/07/2011 to 30/06/2012 oscillated in 3.653 individuals (3.296 permanent personnel and 357 seasonal personnel). More specifically: Parent company at 30 June 2012 occupied in total 2.761 of which 2.713 permanent personnel and 48 seasonal, the Cypriot subsidiary company Jumbo Trading Ltd in total 294 individuals (208 permanent and 86 seasonal personnel) and the subsidiary company in Bulgaria 385 individuals permanent personnel.

10. Proposal for the allocation of profits for the year 2011-2012

Management of the Parent company will propose to the General Meeting for the financial year 2011/2012, the non-distribution of dividends without the obligation to form a special reserve. The above proposal is subject to the approval of the General Meeting by a majority of at least 70% of the paid-up share capital of the Company.

11. Risk management Policy

The company is exposed to various financial risks such as market risk (variation in foreign exchange rates, interest rates, market prices etc.), credit risk and liquidity risk. The company's risk management policy aims at limiting the negative impact on the company's financial results which derives from the inability to predict financial markets and the variation in cost and revenue variables.

The risk management policy is executed by the Management of the Group. The procedure followed is the following:

- Evaluation of risks related to the company's activities
- Methodology planning and selection of suitable derivative products for risk reduction
- Execute risk management in accordance to the procedure approved by management.

The company's financial instruments include mainly bank deposits, trade debtors and creditors, dividends paid and leasing liabilities.

11.1 Foreign currency risk

The company is active internationally and is exposed to variations in foreign currency exchange rate which arise mainly from US- Dollar. This kind of risk arises mainly from trade transactions in foreign currency as well as from net investments in companies abroad.

The following table presents the sensitivity of the result for the year and the equity in regards to the financial assets and financial liabilities and the US- Dollar / Euro exchange rate.

The financial assets and liabilities in foreign currency translated into euros using the exchange rate at the statement of financial position date as follows:

Amounts in €	01/07/2011- 30/06/2012		01/07/2010- 30/06/2011	
	US\$	Other	US\$	Other
Nominal Amounts				
Financial Assets	-	-	-	-
Financial Liabilities	219.010	-	581.161	-
Short Term Exposure	(219.010)	-	(581.161)	-
Financial Liabilities	-	-	-	-
Long Term Exposure	-	-	-	-
Total	(219.010)	-	(581.161)	-

It assumes a 5% (2011: 5%) increase of the Euro/US-Dollar exchange rate for the year ended 30 June 2012. The sensitivity analysis is based on the company's foreign currency financial instruments held at each statement of financial position date.

If the Euro had strengthened against the US-Dollar by a percentage of 5%, then the result and the equity for the year would have the following impact:

Amounts in €	30/6/2012	30/6/2011
	US\$	US\$
Net profit for the year	8.343	(21.033)
Equity	8.343	(21.033)

If the Euro had weakened against the US-Dollar by a percentage of 5%, then the result and the equity for the year would have the following impact:

Amounts in €	30/6/2012	30/6/2011
	US\$	US\$
Net profit for the year	(9.221)	23.246
Equity	(9.221)	23.246

The Group's foreign exchange rates exposure varies within the year depending on the volume of the transactions in foreign exchange. Although the analysis above is considered to be representative of the company's currency risk exposure.

11.2 Interest Rate Sensitivity

At 30 June 2012 the Company is exposed to changes in market interest rates through its bank borrowings, its leasing agreements, its cash and cash equivalence which are subject to variable interest rates. As in the previous year all other financial assets and other financial liabilities have fixed percentages.

The following table presents the sensitivity of the net profit for the year and equity to a reasonable change in interest rates of +0,5% or -0,5% (01/07/2010-30/06/2011: +/- 0,5%). These changes are considered to be reasonably possible based on observation of the current market conditions.

Costumers and other receivables	32.545.803	23.867.003
Total	88.594.797	143.073.068

The company continuously monitors its receivables identified either individually or by group. Depending on availability and fair cost, independent third party reports or analysis concerning the clients are being used. The group's policy is to cooperate only with reliable clients. The vast majority of the sales concerns retail sales.

The management considers that all the above financial assets that are not impaired in reporting dates under review are of good credit quality, including those that are past due.

None of the financial assets are secured with mortgage or any credit enhancement.

In respect of trade and other receivables the Group is not exposed to any significant credit risk exposure. To minimize this credit risk as regards money market instruments, the Group only deals with well-established financial institutions of high credit standing.

11.4 Liquidity Risk Analysis

The Group manages its liquidity by carefully monitoring scheduled debt servicing payments for long – term financial liabilities as well as cash – outflows due in day – to – day business. Liquidity needs are monitored in various time bands, on a day – to – day and week – to – week basis.

The Group ensures that sufficient available credit facilitations exist, so that it is capable of covering the short-term enterprising needs, after calculating the cash inputs resulting from its operation as well as its cash in hand and cash equivalent. The capital for the long-term needs of liquidity is ensured in addition by a sufficient sum of lending capital and the possibility to be sold long-term financial elements.
