Strong finish to FY18 thanks to improved gross margin; 'Neutral' rating remains on valuation grounds

We raise our target price to EUR 13.70/share (vs. EUR 12.70/share previously) due to the downward revision to our assumptions about working capital needs in the medium-term and the upward revision to our mid-term earnings forecasts. Our new target price stands 6% above current price levels, thus we affirm our 'Neutral' rating on the stock.

- ✓ Key takeaways from FY18 results: Jumbo delivered robust FY18 results characterized by strong revenue growth driven by foreign markets), a small increase in the gross margin (+30bps y-o-y) on currency tailwinds and a solid free cash flow of EUR 130m owing to EBITDA accretion and a modest increase in working capital needs. In more detail, Jumbo reported revenues of EUR 753.3m (+10.5% y-o-y, management has announced this figure in July), EBITDA of EUR 221.2m (+14% y-o-y, 3% above consensus; 2% above our call) and net profits of EUR 151m (+15% y-o-y, 6% above consensus; 3% above our call). The positive surprise against our and consensus estimates should be mainly attributed to the unexpected increase of group's gross margin by 190bps y-o-y in 2H18, reflecting the adoption of successful inventory management practices and the positive sales mix (i.e. increased contribution of high-margin home products to consolidated sales).
- ✓ Cautious outlook for FY19: Management guided for sales growth in the range
 of 5%-6% in FY19, highlighting the stagnation of the Greek market that will
 offset to some extent the dynamic growth in Romania and Bulgaria this year. In
 1Q19, Jumbo's sales increased by 6% y-o-y thanks to the robust performance
 of Romania (double-digit growth) and Bulgaria (11% increase), as the
 performance of group's operations in Greece and Cyprus was modest.
- ✓ **Dividend policy:** The company proposed the distribution of a gross ordinary dividend of EUR 0.39/share (before 15% dividend tax) for FY18, which stood below our call of EUR 0.41/share. The company has paid an interim dividend of EUR 0.17/share last March, thus shareholders will receive the remaining DPS of EUR 0.2172 (ex-dividend date: 13.12.2018).
 - IBG view: On the whole, Jumbo delivered record-high earnings for another year, driven by growing revenues, a broadly stable gross margin despite higher transport costs and the deflation policy enforced in the Greek market, improved productivity (opex/sales ratio up 40bps y-o-y in FY18), that led to robust free cash flow and a net cash position of EUR 287m (16% of MCAP). On the flip side, FY18 DPS fell short of our expectations, especially when taking into account the positive surprise in FY18 EPS (3% above our estimates, 15% y-o-y growth), while 1Q19 trading figures revealed a deceleration of the pace of revenue growth versus the first half of FY18 (1Q18: +12% y-o-y, 1H18: +10% y-o-y), mainly due to the soft performance of Greek operations. Having these in mind, we cut our FY19e sales to EUR 810m (+7.5% y-o-y, 1% downward revision) following management's guidance for 5%-6% revenue growth, sticking to our assumption for a 50bps margin contraction on pricing pressures in Greece. We now forecast, EBITDA of EUR 236m (+7% y-o-y) and net profits of EUR 162m (+7% y-o-y) respectively.

Overview of FY18 results

Forecast-beating results...: Jumbo delivered solid results for the financial year 2017/2018, surpassing our and consensus earnings forecasts on higher than expected gross margin. In particular, Jumbo reported revenues of EUR 753.3m (+10.5% y-o-y, management has announced this figure in July), EBITDA of EUR 221.2m (+14% y-o-y, 3% above consensus and 2% above our call) and net profits of EUR 151m (+15% y-o-y, 6% above consensus, 3% better than we expected). Group EBITDA margin improved by 80bps y-o-y to 29.4% in FY18, reflecting better sales and reduced opex/sales ratio. In the second half of FY18, sales came in at EUR 310m (+11% y-o-y), EBITDA shaped at EUR 92m (+19% y-o-y), while net profits stood at EUR 61m (+22% y-o-y).

...thanks to stable gross margin: Group's gross profit margin soared by 190bps y-o-y in 2H18 at 55.5%, driving the annual gross margin at 52.5% (+30bps y-o-y; IBG call for 51.5%). On a full-year basis, Jumbo reported gross profits of EUR 395m (+11% y-o-y), while 2H18 gross profit was up by 15% y-o-y at EUR 172m. The sharp increase in the gross margin in 2H18 was a positive surprise for us, based on the decrease of the margin in the first half of 2018 (-90bps y-o-y), which the management attributed to the transport cost increase and the continuing deflation policy enforced in the Greek market. Still, Greece (including franchise stores in Western Balkans) was the main driver of the improvement of group's gross margin in 2H18, displaying a 270bps y-o-y margin accretion compared to a less than 100bps margin increase in Romania (+60bps y-o-y) and Bulgaria (+90bps y-o-y).

Opex on the rise: Operating expenses grew by 9% y-o-y at EUR 199m (IBG call: EUR 195m) in FY18 pointing to a SGA/sales ratio of 26.4% (-40bps y-o-y). In 2H18, operating expenses posted a 12% y-o-y increase shaping at EUR 93m. Per cost item, personnel expenses increased by 10% y-o-y to EUR 96m in FY18 following 688 net hirings last year (a 12% y-o-y increase in group's workfoce), rents shaped at EUR 16m (+3% y-o-y), while advertisement expenses came in at EUR 10m, accounting for 1.3% of total sales

Other P&L items: Other income (net) reached EUR 0.5m in FY18 from negative income of EUR 1.2m in FY17 (we were expecting negative other income of EUR 1.6m for FY18), also explaining the positive deviation of group's EBITDA against our estimates. Depreciation expenses were slightly higher in FY18 to EUR 24.7m (vs. EUR 23.0m in FY17) driving group's EBIT at EUR 197m (+14% y-o-y). Net finance income shaped at EUR 1.3m (in line with our estimates) versus EUR 1.6m in FY17. The effective tax rate shaped at 23.6% in FY18 versus 24.5% in FY17, in line with our estimates, leading to income taxes of EUR 47m (+10% y-o-y) in FY18.

Dividend policy: The company announced the distribution of a gross ordinary dividend of EUR 0.39/share (before 15% dividend tax) for FY18, which stood below our call of EUR 0.41/share. The company has paid an interim dividend of EUR 0.17/share last March, thus shareholders will receive the remaining DPS of EUR 0.2172 (ex-dividend date: 13.12.2018). The payout ratio is 35% and the gross dividend yield is 1.7%.

Store openings: The company maintained its guidance regarding its investment plans in FY18. In particular, Jumbo will open 3 new stores in Romania and 1 new store in Greece by the end of FY19. We note that the company has already opened a new privately owned store in Romania (Bucharest) with total surface of 13,600sqm.

New bond loan: In August 2018, the company signed a bond loan of up to EUR 200m and 8-year tenor. The new loan bonds will be issued in November 2018 and carry an interest margin of 2.75%. The purpose of the above loan is to refinance the existing common bond loan of EUR 145m, as well as to finance company's capex.

Material improvement in FCF on better profits and a mediocre increase in working capital needs: Operating cash flow settled at EUR 165m in FY18 compared to EUR 104m in the same period of the previous financial year, reflecting a small increase in working capital needs versus the previous financial year (i.e. EUR 5m in FY18 versus EUR 42m in FY17) on efficient inventory management (i.e. EUR 9m increase in FY18 compared to a EUR 43m increase in FY17). Capex shaped at EUR 42m in FY18 compared to EUR 38m in FY17. That said, free cash flow shaped at EUR 130m in FY18 compared to EUR 82m in FY17. As a result of the solid FCF generation, group's net cash position reached EUR 287m on 30 June 2018 compared to EUR 207m on 30 June 2017.

Source: The Company, IBG Research, Note: Jumbo's financial year ends on June 30.

Strong momentum in the Balkans offset the soft performance of domestic operations: Revenues from Greek operations rose 3% y-o-y to EUR 463m in FY18, pointing to a 4% turnover accretion in 2H18, reflecting growing online sales and increased market shares. Jumbo stores in Cyprus generated revenues of EUR 85.7m (+6% y-o-y) maintaining their modest positive momentum for another year (FY16: +5% y-o-y, FY17: +2% y-o-y).

Sales from Bulgaria grew by 20.8% y-o-y to EUR 78m driven by market share gains and a positive macro environment in the country, while revenues from Romania advanced by 53% y-o-y reaching EUR 101m in FY18, on the back of market share gains (like-for-like sales were up by 20% y-o-y) and the contribution of new stores (28% y-o-y increase in effective selling capacity).

Finally, franchise stores in Serbia, Bosnia, FYROM, Albania and Kosovo recorded revenues of EUR 26m in FY18 (+25% y-o-y) reflecting the addition of 7 new stores during FY18. As at June 30th 2018, 18 franchise stores were in operation in Western Balkans (4 in FYROM, Albania, Kosovo, Serbia and 2 in Bosnia). On the whole, sales from foreign markets grew by 25% y-o-y to EUR 290m in FY18, accounting for 38.5% of consolidated revenues.

Source: The Company, IBG Research, Note: Jumbo's financial year ends on June 30.

Turning into a home product retailer: Per product category, home products expanded their portion on total sales by 130bps y-o-y to 33.3% in FY18, thanks to the 15% y-o-y growth of the turnover of this category, explaining the stabilization of group's gross margin at the level of 52.5% last year. High-margin seasonal products accounted for 24% of total sales, posting a 10% y-o-y turnover increase, while stationary sales also grew by 10% y-o-y.

On the positive side, toy sales jumped by 9% y-o-y in FY18, but still their contribution to group's top line has been further decreased to 22%, while the baby apparel category maintained its declining sales performance (-5% y-o-y) on unfavorable demographic trends in Greece.

The new product category 'Haberdashery & similar items' generated revenues of EUR 57m (+12% y-o-y) in FY18, accounting for 7.5% of total sales. It has become more evident now that Jumbo is gradually being transformed into a home equipment retailer, as its traditional product categories (toys, baby items) are accounting for a lower portion of total sales year by year.

New set of forecasts

We have modified our P&L forecast to take into account management's guidance for FY19 i.e. sales growth in the range of 5% to 6%, as well as the positive surprise regarding group's gross margin in FY18. For the current financial year, we forecast revenues of EUR 810m (+7.5% y-o-y), EBITDA of EUR 236m (+7% y-o-y) and net profits of EUR 162m (+7% y-o-y), sticking to our assumptions for a 50bps y-o-y contraction in the gross margin, a 6% y-o-y opex increase and an effective tax rate of 23.6% (unchanged).

Per country, we expect the positive momentum in Romania (revenues up 34% y-o-y, samestore sales up 20% y-o-y) and Bulgaria (sales up 12% y-o-y) to continue, while the revenue performance of group's operations in Greece (+1% y-o-y) and Cyprus (+4% y-o-y) is expected to remain mediocre throughout FY19.

On the whole, Jumbo is expected to post solid EPS accretion in the medium-term (EPS GAGR of 8% over the next 5 years) driven by the robust growth momentum in foreign markets and the gradual improvement of consumer sentiment in Greece. We note that we have factored in the opening of 4 new stores during financial years 2019-2022 and no entry in new markets in the coming years.

Dividend policy

Management has a strict rule to distribute at least 1/3 of group's net profits to shareholders. The new feature in the company's dividend policy is the distribution of an interim dividend for 2 consecutive years i.e. EUR 0.1728/share for FY18, EUR 0.18/share for FY17. Despite the ample liquidity, we expect the management team to remain conservative on the dividend front. We have set the dividend payout ratio at 36% over our forecast period, driving our DPS projections at EUR 0.42 for FY19 and EUR 0.46 for FY20. The implied dividend yield is a mediocre 3.5% over the next couple of years.

DPS forecasts 2019-2023

EUR m	FY 2018	FY 2019f	FY 2020f	FY 2021f	FY 2022f	FY 2023f

Free cash flow

We stick to our expectation for solid FCF generation in the medium-term driven by strong earnings potential that will more than offset higher income taxes, increased working capital needs and investment plans. In particular, we expect FCF of EUR 112m for FY19 and EUR 126m for FY20, assuming capex of EUR 50m each year. On our estimates, Jumbo's net cash position will reach EUR 344m in FY19, accounting for c. 20% of its current MCAP.

Projected FCF 2019-2023

EUR m	FY 2018	FY 2019f	FY 2020f	FY 2021f	FY 2022f	FY 2023f

Valuation & Rating

We raise our target price to **EUR 13.70/share** (vs. EUR 12.70/share previously) due to the downward revision to our assumptions about working capital needs in the medium-term and the upward revision to our mid-term earnings forecasts. In relation to the discount rate (WACC), we stick to our assumption for 11.4% that properly reflects the elevated country risks (GGB yield) and group's very low leverage, in our view. Our new target price stands 6% above current price levels, thus we affirm our '**Neutral**' rating on the stock on valuation grounds.

We have performed a sensitivity analysis of our valuation results with respect to the discount rate and the perpetuity growth rate. Our sensitivity analysis yields a price range between **EUR 12.40 – 15.20** per share and in particular a 100bps reduction in the discount rate will add **EUR 0.40/share or 3.0% to our target price** and vice-versa.

Risks to our Estimates and Valuation

The main risks to our forecasts and valuation are summarized below:

On the upside:

- The faster than we had expected recovery of the Greek economy that will improve consumer confidence, will positively impact the turnover of a leading retailer such as Jumbo.
- 2. The strengthening of the euro against the USD will provide some relief on COGS (80% of the products are USD-denominated).
- 3. The company has achieved to maintain the gross margin at satisfactory levels (>52% in the last 10 years) despite a quite volatile currency environment, owing to a favourable sales mix, early stocking practices and the switch to new suppliers. For conservative reasons, we have assumed a modest decrease in gross margin in the medium-term versus financial year 2018.
- Entry in new markets in the Balkans and Eastern Europe that are best-fitted to accept Jumbo's product proposition and faster than we had expected store roll-out in existing markets.

On the downside:

- 1. Unfavourable currency movements (i.e. stronger USD against the euro) will negatively affect group's gross margin.
- 2. Weak sales growth on slower than expected economic recovery and political instability in Greece.
- 3. Higher transport costs and inflationary pressures in China that will negatively impact inventory prices, thus group's gross margin.
- 4. Delays in the roll-out of the distribution network in Romania.

Notes

BVPS

Sector: General Retailers/Broadline Retailers

Company Description: Jumbo is the largest toys/babies apparel/bookstore/home/seasonal products retailer in the Greek market, also with presence in Cyprus, Bulgaria, Romania and Western Balkan countries through franchise agreements. The company has a successful business model based on its geographical sales network expansion strategy, a wide assortment of products and a competitive pricing policy. Currently, Jumbo operates 76 stores (51 in Greece, 11 in Romania, 9 in Bulgaria and 5 in Cyprus).

^{*} Where EBITDA (adj.) or EBITA (adj)= EBITDA (or EBITA) -/+ Non Recurrent Expenses/Income and where EBIT (adj)= EBIT-/+ Non Recurrent Expenses/Income - PPA amortisation **Price (in local currency): Fiscal year end price for Historical Years and Current Price for current and forecasted years

ESN Recommendation System

The ESN Recommendation System is **Absolute**. It means that each stock is rated on the basis of a **total return**, measured by the upside potential (including dividends and capital reimbursement) over a **12 month time horizon**.

The ESN spectrum of recommendations (or ratings) for each stock comprises 5 categories: Buy (B), Accumulate (A), Neutral (N), Reduce (R) and Sell (S).

Furthermore, in specific cases and for a limited period of time, the analysts are allowed to rate the stocks as **Rating Suspended (RS)** or **Not Rated (NR)**, as explained below.

Meaning of each recommendation or rating:

- Buy: the stock is expected to generate total return of over 15% during the next 12 months time horizon
- Accumulate: the stock is expected to generate total return of 5% to 15% during the next 12 months time horizon
- Neutral: the stock is expected to generate total return of -5% to +5% during the next 12 months time horizon
- Reduce: the stock is expected to generate total return of -5% to -15% during the next 12 months time horizon
- **Sell**: the stock is expected to generate total return **under -15%** during the next 12 months time horizon
- Rating Suspended: the rating is suspended due to a change of analyst covering the stock or a capital operation (take-over bid, SPO, ...) where the issuer of the document (a partner of ESN) or a related party of the issuer is or could be involved
- Not Rated: there is no rating for a company being floated (IPO) by the issuer of the document (a partner of ESN) or a related party of the issuer

Certain flexibility on the limits of total return bands is permitted especially during higher phases of volatility on the markets

Disclosure Appendix

The information and opinions in this report were prepared by Investment Bank of Greece, which is regulated by the Bank of Greece (License No: 52/2/17.12.99) and by the Hellenic Capital Market Commission. Investment Bank of Greece has not entered any agreement with the subject companies for the execution of this analysis.

This report is for informative purposes only. Under no circumstances is it to be used or considered as an offer to sell, or a solicitation of any offer to buy, any security. While the information contained herein has been obtained from sources believed to be reliable, we do not represent that it is accurate or complete and it should not be relied upon as such. In producing its research reports, members of Investment Bank of Greece research department may have received assistance from the subject company(ies) referred to in this report. Any such assistance may have included access to sites of the issuers, visits to certain operations of the subject company(ies), meetings with management, employees or other parties associated with the subject company(ies) and the handing by them of historical data regarding the subject company(ies) (financial statements and other financial data), as well as of all publicly available information regarding strategy and financial targets. Investment Bank of Greece research personnel are prohibited from accepting payment or reimbursement of travel expenses from site visits to subject companies. It should be presumed that the author(s) of this report, in most cases, has had discussions with the subject company(ies) to ensure factual accuracy prior to publication. All opinions, projections and estimates constitute the judgment of the author as of the date of the report and are given in good faith, but are subject to change without notice. Prices and availability of financial instruments also are subject to change without notice. Investment Bank of Greece or one of its affiliates or persons connected with it may from time to time buy and sell securities referred herein. Although Investment Bank of Greece does not set a predetermined frequency for publication, if this is a fundamental research report, it is the intention of Investment Bank of Greece to provide research coverage of the subject company(ies), including in response to news affecting this issuer, subject to applicable quiet p

banking or other services for, or solicit investment banking or other business from, any company mentioned in this report. Investment Bank of Greece does and seeks to do business with companies covered in their research reports. Thus, investors should be aware that the firms may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. Securities referred to in this research report are subject to investment risks, including the possible loss of the principal amount invested. This report is intended for professional investors only and it is not to be reproduced or copied or reprinted or transmitted for any purpose without permission. We certify that this report has been published in accordance with our conflict management policy and guidelines. According to Investment Bank of Greece policies, the Analysis Department of Investment Bank of Greece is bound by confidentiality, with the exception of data allowed to be published in accordance with the applicable laws. Investment Bank of Greece relies on information barriers to control the flow of information in one or more areas within Investment Bank of Greece organization. The communication between the Analysis Department of Investment Bank of Greece and the other departments of the aforementioned company is restricted by Chinese Walls set between the different departments, so that Investment Bank of Greece can abide by the provisions regarding confidential information and market abuse.

Risks to our forecasts and valuation

- Group's earnings performance is sensitive to FX movements (especially the EUR/USD currency pair) and the evolution of manufacturing costs in China
- Challenging macroeconomic conditions in Greece that may have a negative impact in the company's financial performance, since as a retail company, Jumbo is affected by factors that influence consumer behaviour.
- Volatility in transport costs directly affects group's gross profit margin.
- A stricter competitive environment (i.e. entry of foreign companies in the Greek market, retail store expansion from existing players) could pose risk to group's earnings performance in the medium-term.
- High dependence of the company's structure from the Chairman and major shareholder of the group.
- Stock overhang concerns: Jumbo's major shareholder, Tanocerian Maritime SA which is controlled by the company's founder and Chairman
 Mr. Apostolis Vakakis has proceeded to a private placement in June 2017 (3.5% of total share capital) at a 5% discount from the stock price
 at that time. We would not exclude further placements in the future.

Additional disclosures

1.Additional note to our U.S. readers: This document may be distributed in the United States solely to "major US institutional investors" as defined in Rule 15a-6 under the US Securities Exchange Act of 1934. Each person that receives a copy, by acceptance thereof, represents and agrees that he/she will not distribute or otherwise make available this document to any other person.

- 2.All prices and valuation multiples are based on the closing of ATHEX's last session prior to the issue of this report, unless otherwise indicated
- 3.Our research reports are available upon request at www.ibg.gr, on Bloomberg's IBGR and ESNR functions and on Thomson Reuters website.
- 4. Additional information is available upon request.

For U.S. persons only: This research report is a product of Investment Bank of Greece which is the employer of the research analyst(s) who has prepared the research report. The research analyst(s) preparing the research report is/are resident outside the United States (U.S.) and are not associated persons of any U.S. regulated broker-dealer and therefore the analyst(s) is/are not subject to supervision by a U.S. broker-dealer, and is/are not required to satisfy the regulatory licensing requirements of FINRA or required to otherwise comply with U.S. rules or regulations regarding, among other things, communications with a subject company, public appearances and trading securities held by a research analyst account.

This report is intended for distribution by **Investment Bank of Greece** only to "Major Institutional Investors" as defined by Rule 15a-6(b)(4) of the U.S. Securities and Exchange Act, 1934 (the Exchange Act) and interpretations thereof by U.S. Securities and Exchange Commission (SEC) in reliance on Rule 15a 6(a)(2). If the recipient of this report is not a Major Institutional Investor as specified above, then it should not act upon this report and return the same to the sender. Further, this report may not be copied, duplicated and/or transmitted onward to any U.S. person, which is not the Major Institutional Investor.

In reliance on the exemption from registration provided by Rule 15a-6 of the Exchange Act and interpretations thereof by the SEC in order to conduct certain business with Major Institutional Investors, **Investment Bank of Greece** has entered into an agreement with a U.S. registered broker-dealer, Marco Polo Securities Inc. ("Marco Polo"). Transactions in securities discussed in this research report should be effected through Marco Polo or another U.S. registered broker dealer.

These reports have been prepared and issued by the Members of European Securities Network LLP ('ESN'). ESN, its Members and their affiliates (and any director, officer or employee thereof), are neither liable for the proper and complete transmission of these reports nor for any delay in their receipt.
