## II. Independent Review Report

To the Board of Directors of JUMBO S.A.

Review Report on Interim Financial Information

### Introduction

We have reviewed the accompanying condensed separate and consolidated statement of financial position of JUMBO SA as at 30 June 2022 and the relative condensed separate and consolidated statement of profit or loss and comprehensive income, changes in equity and cash flows for the six-month period then ended, as well as the selected explanatory notes, that comprise the interim financial information, which forms an integral part of the six-month financial report under Law 3556/2007.

Management is responsible for the preparation and fair presentation of this condensed interim financial information, in accordance with the International Financial Reporting Standards, as adopted by the European Union and apply for interim financial reporting (International Accounting Standard “IAS 34”). Our responsibility is to express a conclusion on this condensed interim financial statements based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 (ISRE) “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Auditing Standards, as incorporated into the Greek legislation, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard “IAS 34”.

### Report on Other Legal and Regulatory Requirements

Based on our review, we did not identify any material misstatement or error in the representations of the members of the Board of Directors and the information included in the six-month Board of Director's Management Report, according to article 5 and 5a of L. 3556/2007, in respect of the accompanying condensed interim separate and consolidated financial information.

### III. Six- month Board of Directors' Report

**OF SOCIETE ANONYME  
"JUMBO ANONIMI EMPORIKI ETAIREIA"  
ON THE CONDENSED INTERIM CONSOLIDATED  
AND COMPANY'S FINANCIAL STATEMENTS  
FOR THE PERIOD FROM 01.01.2022 TO 30.06.2022**

Dear Shareholders,

The presented six-month report of the Board of Directors refers to the period of the first six months of the current financial year 2022 (01.01.2022-30.06.2022). The Report has been prepared in accordance with the related provisions of Law 3556/2007 (Government Gazette 91A/30.04.2007) as well as the publicized resolutions of the Board of Directors of the Hellenic Capital Market Commission.

This report briefly describes financial information for the first half of the current financial year, the most significant events that took place during this period and their effect on the condensed interim financial statements of this period regarding Jumbo SA and Jumbo Group. At the same time, it provides a description of the main risks and uncertainties the Group and Company might be faced with during the second half of the financial year, as well as the most significant transactions that took place between the issuer and its related parties.

**A. REVIEW OF THE CLOSING PERIOD**  
**FROM 01.01.2022 TO 30.06.2022**

During the winter months, the Group's stores in Greece, Cyprus, Bulgaria and Romania continued to operate with restrictions and controls of certificates against Covid-19 for the incoming customers, mainly affecting the performance of the stores in Bulgaria and Romania, where vaccination coverage was at a lower level. As of March onwards, all the countries gradually relaxed or lifted the restrictions.

In addition to the restrictions on the operation of the stores, it should be noted that the turbulence in the ports caused by the consecutive lockdowns in China due to Covid-19, in line with the Greek ports personnel on strike, worsened the market supply, causing delays in the delivery of products.

Sales performance by country for the first six months of 2022 is analytically presented below as follows:

- Greece: Overall, for the six-month period of 2022, the net sales of the parent company - excluding intragroup sales- increased by +21,20% y-o-y.
- Cyprus: The network's sales for the six-month period of 2022 increased by +24,85% y-o-y.
- Bulgaria: The network's sales for the six-month period of 2022 decreased by -0,3% y-o-y.
- Romania: The network's sales for the six months of 2022 decreased by -7,24% y-o-y.

As a consequence, the Group's turnover for the first six months of 2022 reached € 354,00 mil, presenting an increase of 12,82% as compared to the respective period last year, with a turnover of € 313,78 mil. The Company's turnover amounted to € 286,38 mil, presenting an increase of 15,58% as compared to the respective period last year with a turnover of € 247,78 mil.

During the first half of the year, Jumbo Group continued the implementation of its investment program. In March 2022, the Group's new hyper-store in Greece, specifically in Mytilini, started its operation.

As at 30.06.2022, the Group's network had 82 stores, 53 of which are located in Greece, 5 in Cyprus, 9 in Bulgaria and 15 in Romania, while the on line store was operating in Greece and Cyprus.

Furthermore, the Company, through collaborations, had presence, with 30 stores operating under the JUMBO brand, in six countries (Albania, Kosovo, Serbia, North Macedonia, Bosnia and Montenegro).

Some important financial data for the Group and the Company are analyzed below as follows:

**Gross Profit:** The Group's gross profit margin for the current period (01.01.2022-30.06.2022) stood at 57,04% from 53,07% for the previous respective period.

Respectively, for the Company, the gross profit margin for the period 01.01.2022-30.06.2022 stood at 44,32% compared to the previous respective period 01.01.2021-30.06.2021 standing at 40,96%.

**Earnings before interest, taxes, investment results, depreciation and amortization:** Earnings before interest, tax, investment results, depreciation and amortization of the Group reached € 115,78 mil from € 103,24 mil in the previous respective period and earnings before interest, taxes, investment results depreciation and amortization margin stood at 32,71% from 32,90%.

Earnings before interest, taxes, investment results depreciation and amortization for the Company reached € 65,74 mil. from € 59,96 mil. in the previous respective period and earnings before interest, taxes, investment results depreciation and amortization margin stood at 22,96% from 24,20%.

**Net Profits after tax:** The Net Consolidated Profits after tax reached € 78,56 mil. versus the previous respective period when those stood at € 67,18 mil., i.e. increased by 16,94%.

With capital expenditures of € 5,25 mil during the first half of the current financial year the Company's net cash flows from investing and operating activities amounted to € 16,58 mil. as at 30.06.2022 from 135,43 mil. as at 30.06.2021. Cash and cash equivalents as well as other current financial assets amounted to € 330,44 mil on 30.06.2022 from € 440,52 mil on 30.06.2021.

The Company and the Group classify bank deposits with a term of more than 3 months in the line item "other current financial assets". These deposits are highly liquid assets, readily convertible into cash without being subject to a significant risk of change in their value or giving rise to a significant cost in the event of a premature termination before the end of the contract period. For this reason, they are included in a distinct line in the cash flows of the Company and the Group, as they are considered directly available.

**Earnings per share:** The Group's basic earnings per share reached € 0,5774 as compared to € 0,4937 in the previous respective period, i.e. increased by 16,94%.

Earnings per share of the Company reached € 0,2920 increased by 11,71% as compared to the previous respective period of € 0,2614.

Earnings/(losses) per share have been calculated based on the allocation of profits / (losses) after tax, on the weighted average number of shares of the parent company.

**Net Tangible Fixed Assets:** As at 30.06.2022, the carrying amount of the Group's Tangible Fixed Assets amounted to € 693,68mil., including right-of-use assets, and represented 39,50% of the Group's

#### **Adding Value and Performance Valuation Factors**

The Group recognizes four geographical segments, Greece, Cyprus, Bulgaria and Romania, as operating segments. The above geographical segments are those used by the Management for internal information purposes. The Management's strategic decisions are based on the operating results of every segment, which are used for measurement of profitability.

On 30.06.2022 the total amount of earnings before taxes, financial and investment results which was allocated among the four segments, stood at € 98,08 mil. Respectively, on 30.06.2021 the total amount of earnings before taxes, financial and investment results which was allocated among the four segments stood at € 84,90 mil.

Greece segment represented for the current period 01.01.2022-30.06.2022 60,01% of the Group's turnover while it also contributed 49,89% of the total earnings before taxes, financial and investment results. During the previous respective period this segment represented 55,86% of the Group's turnover while it also contributed 49,81% of the total earnings before taxes, financial and investment results.

Cyprus segment represented for the current period 01.01.2022-30.06.2022 11,77% of the Group's turnover while it also contributed 15,30% of the total earnings before taxes, financial and investment results. In the previous comparative period this segment represented 10,64% of the Group's turnover while it also contributed 12,49% of the total earnings before taxes, financial and investment results.

Bulgaria segment represented for the current period 01.01.2022-30.06.2022 9,23% of the Group's turnover, while it also contributed 10,48% of the total earnings before taxes, financial and investment results. In the previous comparative period this segment represented 10,41% of the Group's turnover, while it also contributed 10,18% of the total earnings before taxes, financial and investment results.

Romania segment represented in the current period 01.01.2022-30.06.2022 18,99% of the Group's turnover, while it also contributed 24,33% of the total earnings before taxes, financial and investment results. During the previous comparative period this segment represented 23,10% of the Group's turnover, while it also contributed 27,52% of the total earnings before taxes, financial and investment results.

The Group evaluates its results and performance on a monthly basis, thus timely and effectively identifying deviations from its objectives and undertaking the necessary corrective actions. The Group evaluates its financial performance using the following generally accepted Key Performance Indicators:

**ROCE (Return on Capital Employed):** This ratio divides the net earnings after taxes with the total Capital Employed, which is the total of the average of the Equity of the two last reporting periods and the average of the total lease liabilities and borrowings of the two last reporting periods. The ratio reached:

- for the Group: for the closing period 01.01.2022-30.06.2022 4,91%, previous respective period 4,41%,
- for the Company: for the closing period 01.01.2022-30.06.2022 3,87%, previous respective period 3,40%,

**ROE (Return on Equity):** this ratio divides the Earnings After Tax (EAT) with the average Equity of the two last reporting periods and stood at:

- for the Group: for the closing period 01.01.2022-30.06.2022 5,98%, previous respective period 5,50%,
- for the Company: for the closing period 01.01.2022-30.06.2022 5,24%, previous respective period 4,66%

### Alternative Financial Performance Measures

The Group uses as alternative performance measures Earnings before Interest, Tax Depreciation and Amortization (EBITDA), Margin of Earnings before interest, tax, investment results, depreciation and amortization and Net debt. These indicators are taken into account by the Group's management for strategic decisions.

<b>Earnings before interest, taxes, depreciation and amortization (EBITDA)</b>

#### Note

The net debt for the Company and the Group is represented by the total lease liabilities and borrowings less the amount of cash and cash equivalents and other current financial assets and is used by the Management of the Company and the Group as a measure of liquidity.

## B. SIGNIFICANT EVENTS IN THE CLOSING PERIOD

The significant events which took place during the first half of the current year (01.01.2022-30.06.2022) as well as their effect on the condensed interim financial statements are the following.

The Extraordinary General Meeting of Shareholders of the Company of 19.01.2022 decided, among other things, to increase the number of the Board of Directors members, elected by the Ordinary General Meeting at 15.06.2021 with the election of two new members, Mr Polys Polycarpou, son of Andreas, and Mr Savvas Kaouras, son of Antonios (the latter as an independent non-executive member given that all the independence criteria within the meaning of the provisions of paragraphs 1 and 2 of article 9 of Greek Law 4706/2020 are met). The term of office of the Board of Directors remains unchanged, it expires on 15.06.2023 and may be extended until the period within which the next Ordinary General Meeting of the

Shareholders of the Company must be convened and until a relative decision is taken.

The Extraordinary General Meeting of the Company's shareholders held on 19.01.2022, decided for 2022 on a cash distribution of 0,3850 EUR/ share before withholding dividend tax, i.e. a total amount EUR 52.383.007,22, formed from extraordinary reserves from taxed and non-distributed profits of the financial years 01.07.2016-30.06.2017 and 01.07.2017-30.06.2018. The net extraordinary cash distribution, after withholding 5% tax, where required, amounted to 0,36575 EUR/ share and the payment to the beneficiaries started on 31.01.2022.

The Board of Directors of the Company at its meeting held on 10.05.2022, decided on the extraordinary cash distribution of 0,3850 EUR/share (gross), before withholding legal dividend tax, i.e. a total of EUR 52.383.007,22, which was part of the extraordinary reserves from taxed and non-distributed profits for the year from 01.01.2021-31.12.2021. The net extraordinary cash distribution, after withholding 5% tax, where required, amounted to 0,36575 EUR/ share and the payment to the beneficiaries started on 08.06.2022.

With the above two distributions of an equal amount, the Company's management implemented its commitment to maintain the dividend policy for 2021 and for 2022 by distributing a total amount of 0,77 EUR per share (gross).

On April, 2022, the share capital decrease of the subsidiary JUMBO ECB LTD was completed in accordance with the decision of the Board of Directors as of November 12, 2021 of the parent company "JUMBO SA". Now, the share capital of the subsidiary, after the completion of the above reduction, amounts to € 31,78 million.

The Ordinary General Meeting held on May 5th, 2022, decided to start a program to acquire the Company's equity shares according to article 49 et seq. of Law 4548/2018 for the purpose of their cancelation, under the following terms: a. The maximum number of shares to be acquired will not exceed 13.605.975, which represents ten percent (10%) of the fully paid-up share capital of the Company, b. Their minimum purchase price will be one (EUR 1) euro per share and their maximum purchase price will be thirteen euros and fifty cents (EUR 13,50) per share, c. The program's period of implementation is twenty-four (24) months, i.e. from 05.05.2022 to 04.05.2024. Until the date of approval of the financial statements the Company had not acquired any equity shares.

The direct and indirect effects of the COVID-19 on the financial results of the Group and of the Company are analysed in section A "Review of the closing period from 01.01.2022 to 30.06.2022" as well as in section C "Risk Management" of the Six-Month Board of Directors report.

### **C. RISK MANAGEMENT**

The Group is exposed to various financial risks such as market risk (variation in foreign exchange rates, interest rates, market prices etc.), credit risk and liquidity risk. The Group's risk management policy aims at limiting the negative impact on the Group's financial results, which arises from the inability to predict financial markets and fluctuations in cost and revenue variables.

The risk management policy is executed by the Management of the Group, which evaluates the risks related to the Group's activities and operations, plans the methodology and selects suitable financial products for risk reduction.

The Group's financial instruments include mainly bank deposits, trade debtors and creditors, dividends payable and loans.

#### **Foreign Exchange Risk**

The Group operates internationally and, therefore, it is exposed to foreign exchange risk, which arises mainly from the U.S. Dollar and Romanian Lei (RON) due to the operation of the Group through its subsidiary company in Romania. The Group deals with this risk with the strategy of early stocking that

provides the opportunity to purchase inventories at more favorable prices while been given the opportunity to review the pricing policy through its main operational activity which is retail sales. However, significant variation in foreign exchange rates could have a negative effect on its results.

#### **Interest Rate Risk**

On June 30<sup>th</sup> 2022, the Group and the Company are exposed to changes in the interest rate market in terms of their bank borrowing, cash and cash equivalents which are subject to a variable rate of interest. A reasonable change in the interest rate of +/- 0,5% would benefit / burden the Company's and Group's results by € 1,19 mil. and € 0,37 mil, respectively. Deposits up to three months term as well as deposits over three months term (other current financial assets) have been included in the calculation.

#### **Credit Risk**

The main part of the Group's sales concerns retail sales (effected mostly in cash), while wholesale sales are made to clients with a reliable credit record. In respect of trade and other receivables, the Group is not exposed to any significant credit risk. To minimize the credit risk as regards cash and cash equivalents, the Group only deals with well-established financial institutions of high credit standing.

#### **Liquidity Risk**

The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long - term financial liabilities as well as cash outflows due in the day - to - day business. The Group ensures that sufficient available credit facilities exist, so that it is able to cover the short-term business needs, after calculating the cash flows resulting from its operation as well as its cash and cash equivalents.

#### Other Risks

##### **Political and economic factors**

Demand for products and services as well as the Company's sales and final economic results are affected by external various factors such as political instability, geopolitical instability, economic uncertainty and recession.

One of the consequences of the ongoing war in Ukraine, among other things, is the increase in energy costs, the cost of land transportations, while inflationary pressures dramatically burden the budget of every household.

Moreover, factors such as taxes, political, economic and social changes that can affect Greece and other countries where the Group operates can have a negative effect on the Company's and the Group's going concern, its financial position and results.

In order to deal with the above risks, the Company is constantly re-engineering its products, focusing on cost limitations and creating sufficient stock early enough at fair prices.

##### **Health-related factors**

The Group closely monitors developments regarding the spread of the coronavirus, in order to adapt to the specific conditions that arise exclusively to be in position to address and limit the spread of COVID-19. For this reason, a dedicated team was set up to monitor and evaluate the possible effects of the pandemic, prioritizing the protection of the health and safety of its employees, clients and collaborators. It complies with the official instructions of the competent authorities for the operation of its physical stores and headquarters in the countries in which it operates, while, at the same time, evaluating all the actions that are deemed necessary to protect the financial position of the Company and of the Group and to ensure their operation within the imposed restrictions, as well as taking the appropriate measures to be able to smoothly restore all their activities, after the gradual lifting of the restrictive measures.

##### *Impact on the financial results*

The management of the Company evaluated the potential and actual effects of the pandemic on its business activities and the financial performance of the Company and of the Group, taking into account a number of estimates and assumptions that it has assessed as appropriate under the circumstances, in order to estimate the Company's and the Group's future cash flows.

*Areas that have been extensively evaluated to assess their impact are:*

- Issues in the supply chain

The development and maintenance of a value-added supply chain for the Group, with economically, environmentally and socially responsible methods and practices, is a constant challenge, harmonized with the Group's vision. The Group's suppliers are important partners in achieving the business goals that will ensure its competitiveness and sustainable development.

Given the growing complexity of the global supply chain and the degree to which the global economic system is interconnected, the effects of the initial outbreak of the virus in Asia were quickly felt in other economies as well, disturbing violently the years' balances. Indicatively, one of multiple parameters of the disturbance, caused in the markets, concerns the increase in the price of raw materials in line with the dramatic increase in transportation costs.

Moreover, the zero - Covid case policy implemented in Asia worsen the supply chain problems as ports close or operate under restrictions resulting in delays or shifting in deliveries, thus increasing shortages in products, especially of seasonal products.

The Group traditionally has strategic agreements with suppliers and distributors creating communication channels. The Group has invested in the increase of the number and size of its warehouses, in order to improve the supply to the stores.

- Travel and trade restrictions

Travel restrictions applied in many countries have resulted in cancellation or postponement of exhibitions. Also, it is not possible to visit supplier factories.

The employees of the Group have access to platforms through which exhibitions take place, they hold teleconferences with suppliers as well as with other employees of the Group.

- Decrease in demand and sales

The Group's activity is affected by the amount of disposable income and private consumption depending on the economic conditions in the countries in which it operates.

- Adequacy of financing

The Group was adequately funded at the beginning of the health crisis. The working capital of the Company and the Group is positive and amounts to 503,62 million euros and 886,05 million euros respectively and, therefore, it is not expected that the Company and the Group will have difficulties in repaying their obligations. Moreover, as at 30.06.2022 the total net debt ratio of the Group and of the Company was negative. All the aforementioned are significant factors mitigating the risk and concerns for the upcoming period, which is characterized by exceptional uncertainty.

- Company's and Group's Investment plan

For the second half of 2022 and 2023 the Company's and the Group's investment plan remains intact. Until the end of 2022 Jumbo will open another store in Romania while in 2023, two more hyper-stores in Romania and one hyper-store in Cyprus are expected to open. Furthermore, the online store in Romania is expected to begin its operations. Looking into 2024, uncertainty is increased to such an extent that the decisions that under normal conditions would have taken place today, have been postponed for the time being, due to the uncontrolled increase in costs and the likely side-effects it may have on the competitiveness of any of our future investment options.

### *Going-concern*

Management of the Group constantly evaluates the situation and the potential consequences, and takes all the necessary measures to maintain the viability of the Group and of the Company and minimize the impact on their operations in the current business and economic environment. Maintaining an economic model while restraining the operating costs, adjusting product purchasing policy and sales recovery through reopening of stores constitute the factors that will strengthen this effort.

In any case, the ability of the Company and of the Group to continue as a going concern does not constitute an issue in any case.

### **Suppliers bankruptcy risk**

The unprecedented energy crisis, the increase in operating costs and of the cost of money creating the risk of bankruptcy of a supplier of the Company. In this circumstances the Company faces the risk of losing advances given for the purchase of products.

As a safeguard from the aforementioned risk, the Company has contractual agreements with a significant number of suppliers, none of which represents an important percentage on the total amount of the advance payments.

### **Sales seasonality**

Due to the specific nature of Group's products, its sales present high level of seasonality. A significant part of the Group's annual turnover is realised during the Christmas period (28%), while seasonal sales fluctuations are noted during months such as April (Easter - 12% of annual turnover) and September (beginning of school period- 10% of annual turnover). Sales seasonality demands rationality in working capital management specifically during peak seasons. It is probable that the Group's inadequacy to deal effectively with seasonal needs for working capital during peak seasons may burden it with additional financial expenses and negatively affect its results and its financial position.

Group's inability to cope effectively with the increased demand during these specific periods and delays in deliveries may adversely affect its annual results. Moreover, problems may arise due to external factors such as the course of the pandemic, adverse weather conditions, transportation workers strikes or defective and dangerous products.

### **Dependence on agents-importers**

The Company imports its products directly from abroad as the exclusive dealer for toy companies which do not maintain agencies in Greece. Moreover, the Company acquires its products from more than 230 suppliers which operate within the Greek market.

However, the Company faces the risk of losing revenues and profits in case its cooperation with some of its suppliers terminates. Nevertheless, it is estimated that the risk of not renewing the cooperation with its suppliers is insignificant due to the leading position of JUMBO in the Greek market. The potential of such a perspective would have a small effect in relation to the Company's size since none of the suppliers represents more than 3% of the Company's total sales.

### **Intensity of competition between companies in the industry**

The Company's basic competitors in Greece are super markets (food departments excepted), toy stores, infantile-product stores, stationery stores, seasonal-goods stores, as well as respective electronic storefronts. At the same time, the current status of the market could change in the future either due to the entrance of foreign companies on the Greek market or due to potential strategic changes and expansion of retail store networks and product ranges of present competitors. A potential increase in competition e.g. through price wars or offers could have a negative impact on the revenue and profits of the Group.

**Issues on the supply chain**

70% of the Group's products originate from Asia while China holds the biggest share. The facts that could lead to cessation of Chinese imports (such as embargo for Chinese imports or increased import taxes for Chinese imports or political-economic crises and personnel strikes in China, capital controls or an epidemic) could interrupt the product supply for the Group's selling points, resulting in a negative effect on the Group's operations and its financial position. Having invested in increasing the number, location and size of warehouses and facilities, the Group has the opportunity to proceed with inventory storage to deal with delays in the supply chain.

**Other external factors**

The continuation of the war in Ukraine, the resurgence of the pandemic or a terrorist attack or potential consequences from a new financial crisis in Eurozone and in the other countries in which the Group operates are factors that cannot be foreseen and controlled. Such events can affect the economic, political and social environment of the country with negative results for the Group in general.

**D. INFORMATION ON THE COMPANY'S AND THE GROUP'S PROSPECTS**

The Group holds a leading position in the retail sale of toys, baby products, gift articles, household products, stationery and related and similar types of products and intends to maintain it. The means to achieve this objective include the continuous enrichment of the variety of its traded products, based on developments and demand trends in the categories where the Group operates, maintaining product prices at competitive levels as well as advertising of strong branding.

At 30.06.2022 the Group operated in Greece 53 stores. The Company's objective is to facilitate better management of the existing network and infrastructure through re-evaluation and upgrading the existing stores as announced and expansion of the network in areas where the Company has no presence so far.

In Bulgaria, the subsidiary company «JUMBO EC.B LTD», operated as nine stores at 30.06.2022, four in Sofia, one in Plovdiv, one in Varna, one in Burgas, one in Rousse and one in Stara Zagora.

In Cyprus, the subsidiary company JUMBO TRADING LTD, operated five stores and the online store (<https://www.e-jumbo.gr/el/?country=CY>) as at 30.06.2022. One in Nicosia, two in Lemessos, one in Larnaka and one in Paphos. The Company aims to open one more store in Nicosia next the year.

In Romania, until today, the subsidiary company «JUMBO EC.R SRL» operated fifteen hyper-stores: four stores in Bucharest, one in Timisoara, one in Oradea, one in Arad, one in Ploiesti, one in Pitesti, one in Constanta, one in Suceava, one in Bacau, one in Braila one in Brasov and one in Craiova. Moreover, the Company aims to open one more hyper store in Sibiu (approximately 15.000sqm) within the current year and two more next year.

Regarding e-commerce, the Group has a presence in Greece and in Cyprus. During 2023, the online store in Romania is expected to become operational.

In addition, in the context of its Sustainable Growth policy, the Group continues and invests in stores and warehouses aiming at the reduction of carbon dioxide emissions from electricity consumption. In 2021, the Group started a three-year program for the installation of photovoltaic systems for self-consumption in 28 buildings in Greece and Cyprus, with an installed capacity that will exceed 9,7MWp.

Until 16.09.2022, three projects have been completed in Cyprus, with a total capacity of 1,34MWp. The total production of the three systems is expected to exceed 1.997,23 MWh and by using them to achieve savings in the Carbon (CO<sub>2</sub>) emissions of 1.427 tons per year.

Until the end of the year six more projects are expected to be concluded in Greece with a total capacity of 1.450 kWp, the total production is expected at 2.150 MWh/year and savings in the Carbon (CO<sub>2</sub>) emissions of 1.660 tons per year are expected to arise from their use .

It is to be noted that the Company has presence in six countries (North Macedonia, Albania,

Kosovo, Serbia, Bosnia and Montenegro) through collaboration agreements with stores that operate under the JUMBO brand name. During the financial year of 2020, Jumbo entered into a commercial collaboration agreement for Israel. In the second half of 2022, the first store that will bear the JUMBO brand in Israel is expected to open.

**Note:**

The Group and the Company classify bank deposits with a maturity of more than 3 months as other current financial assets. These cash deposits are highly liquid, readily convertible into cash without being subject to a significant risk of change in their value or giving rise to a significant cost, in the event of an early termination before the end of the contractual period. For this reason, cash flows of the Group and the Company include this item as cash available, in a separate line item.

The accompanying notes constitute an integral part of the condensed interim financial statements.

## **G. SELECTED EXPLANATORY NOTES TO THE INTERIM SEPARATE AND CONSOLIDATED FINANCIAL STATEMENTS AS AT 30 JUNE 2022**

### **1. Information**

The interim condensed separate and consolidated Financial Statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

JUMBO is a trading company, established according to the Greek Legislation. Reference made to the "COMPANY" or "JUMBO S.A." indicates, unless otherwise stated in the text, the Group "JUMBO" and its fully consolidated subsidiary companies.

The Company's distinctive title is "JUMBO" and it has been registered in its articles of incorporation as well as at the department for trademarks of the Ministry of Development as a brand name for JUMBO products and services under number 127218, with protection period upon extension until 5/6/2025. The Company was incorporated in 1986 (Government Gazette 3234/26.11.1986) and its term was set as that of thirty (30) years. ### **3. Framework for the Preparation of Financial Statements**

The attached condensed interim financial statements of the Group and of the Company (henceforth Condensed Interim Financial Statements) dated as of June 30<sup>th</sup>, 2022, for the period from January 1<sup>st</sup> 2022 to June 30<sup>th</sup> 2022 have been prepared according to the historical cost convention (except for the financial assets at fair value through other comprehensive income), the going concern principle and are in compliance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), as well as their interpretations issued by the IFRS Interpretations Committee (I.F.R.I.C.) of IASB, as adopted by the European Union, and in particular, in accordance with IAS 34 "Interim Financial Reporting" on interim condensed financial statements.

The condensed interim financial statements contain limited information in relation to those of the annual financial statements and must be read in conjunction with the annual financial statements of the Company and the Group as at 31 December 2021, which are available on the Company's website at [www.e-jumbo.gr](http://www.e-jumbo.gr) (<http://corporate.e-jumbo.gr/>).

The presentation currency is the Euro (currency of the country of operation of the Parent Company) and all amounts are reported in Euros, unless otherwise stated.

The preparation of financial statements according to International Financial Reporting Standards (IFRS) requires the use of accounting estimates and judgments by management in applying the Group's accounting principles. Significant assumptions made by the Management regarding the application of the Company's accounting principles and methods have been highlighted wherever deemed necessary. Management estimates and judgments are continuously evaluated and are based on empirical data and other factors, including expectations for future events considered as predictable under reasonable circumstances.

During the preparation of the condensed interim Financial Statements, the significant accounting estimates and judgments adopted by the Management for the application of the accounting principles of the Group, are consistent with those applied in the annual financial statements for the financial year 01.01.2021-31.12.2021.

The accounting principles used for the preparation of the condensed interim Financial Statements are in accordance with those used for the preparation of the annual financial statements for the financial year 01.01.2021-31.12.2021, except for the adoption of new and amended accounting standards and interpretations effective as of 1 January 2022 (See Notes 3 and 4 of the interim Financial Statements).

Also, the main sources of uncertainty, which existed during the preparation of the Financial Statements of the financial year ended 31.12.2021 remained the same for the condensed interim Financial Statements of the period ended 30.06.2022.

### 3.1. Changes in Accounting Policies

#### 3.1.1 New Standards, Interpretations, Revisions and Amendments to existing Standards that are effective and have been adopted by the European Union.

The following new Standards, Interpretations and amendments of IFRSs have been issued by the International Accounting Standards Board (IASB), are adopted by the European Union, and their application is mandatory from or after 01/01/2022.

##### **Amendments to IFRS 3 “Business Combinations”, IAS 16 “Property, Plant and Equipment”, IAS 37 “Provisions, Contingent Liabilities and Contingent Assets” and “Annual Improvements 2018-2020” (effective for annual periods starting on or after 01/01/2022)**

In May 2020, the IASB issued a package of amendments which includes narrow-scope amendments to three Standards as well as the Board’s Annual Improvements, which are changes that clarify the wording or correct minor consequences, oversights or conflicts between requirements in the Standards. More specifically:

- **Amendments to IFRS 3 Business Combinations** update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.
- **Amendments to IAS 16 Property, Plant and Equipment** prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognize such sales proceeds and related cost in profit or loss.
- **Amendments to IAS 37 Provisions, Contingent Liabilities and Contingent Assets** specify which costs a company includes when assessing whether a contract will be loss-making.
- **Annual Improvements 2018-2020** make minor amendments to IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 9 Financial Instruments, IAS 41 Agriculture and the Illustrative Examples accompanying IFRS 16 Leases.

The Group will examine the impact of the above on its Financial Statements, though it is not expected to have any.

#### 3.1.2 New Standards, Interpretations and amendments to existing Standards which have not been applied yet or have not been adopted by the European Union

The following new Standards, Interpretations and amendments of IFRSs have been issued by the International Accounting Standards Board (IASB), but their application is not effective yet or they have not been adopted by the European Union.

##### **IFRS 17 “Insurance Contracts” (effective for annual periods starting on or after 01/01/2023)**

In May 2017, the IASB issued a new Standard, IFRS 17, which replaces an interim Standard, IFRS 4. The aim of the project was to provide a single principle-based standard to account for all types of insurance contracts, including reinsurance contracts that an insurer holds. A single principle-based standard would enhance comparability of financial reporting among entities, jurisdictions and capital markets. IFRS 17 sets out the requirements that an entity should apply in reporting information about insurance contracts it issues and reinsurance contracts it holds. Furthermore, in June 2020, the IASB issued amendments, which do not affect the fundamental principles introduced when IFRS 17 has first been issued. The amendments are designed to reduce costs by simplifying some requirements in the Standard, make financial performance easier to explain, as well as ease transition by deferring the effective date of the Standard to 2023 and by providing additional relief to reduce the effort required when applying the Standard for the first time. The Group will examine the impact of the above on its Financial Statements,

though it is not expected to have any. The above have been adopted by the European Union with effective date of 01/01/2023.

**Amendments to IAS 1 “Presentation of Financial Statements” (effective for annual periods starting on or after 01/01/2023)**

In February 2021, the IASB issued narrow-scope amendments that pertain to accounting policy disclosures. The objective of these amendments is to improve accounting policy disclosures so that they provide more useful information to investors and other primary users of the financial statements. More specifically, companies are required to disclose their material accounting policy information rather than their significant accounting policies. The Group will examine the impact of the above on its Financial Statements. The above have been adopted by the European Union with effective date of 01/01/2023.

**Amendments to IAS 8 “Accounting Policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates” (effective for annual periods starting on or after 01/01/2023)**

In February 2021, the IASB issued narrow-scope amendments that they clarify how companies should distinguish changes in accounting policies from changes in accounting estimates. That distinction is important because changes in accounting estimates are applied prospectively only to future transactions and other future events, but changes in accounting policies are generally also applied retrospectively to past transactions and other past events. The Group will examine the impact of the above on its Financial Statements, though it is not expected to have any. The above have been adopted by the European Union with effective date of 01/01/2023.

**Amendments to IAS 12 “Income Taxes: Deferred Tax related to Assets and Liabilities arising from a Single Transaction” (effective for annual periods starting on or after 01/01/2023)**

In May 2021, the IASB issued targeted amendments to IAS 12 to specify how companies should account for deferred tax on transactions such as leases and decommissioning obligations – transactions for which companies recognise both an asset and a liability. In specified circumstances, companies are exempt from recognising deferred tax when they recognise assets or liabilities for the first time. The amendments clarify that the exemption does not apply and that companies are required to recognise deferred tax on such transactions. The Group will examine the impact of the above on its Financial Statements, though it is not expected to have any. The above have been adopted by the European Union with effective date of 01/01/2023.

**Amendments to IAS 1 “Classification of Liabilities as Current or Non-current” (effective for annual periods starting on or after 01/01/2023)**

In January 2020, the IASB issued amendments to IAS 1 that affect requirements for the presentation of liabilities. Specifically, they clarify one of the criteria for classifying a liability as non-current, the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period. The amendments include: (a) specifying that an entity’s right to defer settlement must exist at the end of the reporting period; (b) clarifying that classification is unaffected by management’s intentions or expectations about whether the entity will exercise its right to defer settlement; (c) clarifying how lending conditions affect classification; and (d) clarifying requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments. Furthermore, in July 2020, the IASB issued an amendment to defer by one year the effective date of the initially issued amendment to IAS 1, in response to the Covid-19 pandemic. The Group will examine the impact of the above on its Financial Statements. The above have not been adopted by the European Union.

**Amendments to IFRS 17 “Insurance contracts: Initial Application of IFRS 17 and IFRS 9 - Comparative Information” (effective for annual periods starting on or after 01/01/2023)**

In December 2021, the IASB issued a narrow-scope amendment to the transition requirements in IFRS 17 to address an important issue related to temporary accounting mismatches between insurance contract liabilities and financial assets in the comparative information presented when applying IFRS 17 “Insurance Contracts” and IFRS 9 “Financial Instruments” for the first time. The amendment aims to improve the usefulness of comparative information for the users of the financial statements. The Group

will examine the impact of the above on its Financial Statements, though it is not expected to have any. The above have not been adopted by the European Union.

#### 4.9.2 Fair value of financial instruments

The table below presents the financial instruments measured at fair value in the statement of financial position, in a fair value measurement hierarchy. According to the fair value measurement hierarchy, financial assets and liabilities are grouped into three levels based on the significance of data inputs used for the measurement of their fair value. The fair value hierarchy has the following three levels:

**Level 1:** quoted prices in an active market for identical assets or liabilities.

**Level 2:** inputs other than Level 1 that are observable for the financial assets or liabilities either directly (e.g. market price) or indirectly (e.g. arising from market prices) and

**Level 3:** inputs for assets or liabilities that are not based on observable market data (unobservable inputs).

The level within each financial asset or liability is categorized is determined based on the lowest level of significance of the data inputs used for the measurement of their fair value.

Financial assets and liabilities measured at fair value in the statement of financial position are categorized in the fair value hierarchy as follows:

Amounts in €	THE GROUP			
	Valuation at fair value at the end of the fiscal year using:

Listed bonds are valued at the closing price on the reporting date. As at 30.06.2022, given the bonds valuation, a loss of € 2.212.446 has been recorded in the statement of comprehensive income in the condensed interim Financial Statements.

Listed shares are valued at their closing price at the reporting date.

After the issuance and listing of the shares of Bank of Cyprus Holdings Public Limited Company on the London Stock Exchange and the Cyprus Stock Exchange, Jumbo Trading LTD holds a total of 2.660.859 shares of Bank of Cyprus Holdings Public Limited Company (BOC Holdings). The closing share price as at 30.06.2022 was € 1,015 and the shares valuation gave rise to a loss of € 119.739, recorded in the statement of comprehensive income in the condensed interim Financial Statements.

#### 4.10 Other long term receivables

The balance of the account is analysed as follows:

Other long term receivables (amounts in euro)	THE GROUP		THE COMPANY	
	30/06/2022	31/12/2021	30/06/2022	31/12/2021

<b>Total</b>	<b>7.063.031</b>	<b>6.598.982</b>	<b>6.859.796</b>	<b>6.412.022</b>

The total amount included in «Guarantees» line item relates to long term lease guarantees and guarantees to public benefit organizations, which will be collected or returned after the end of the next financial year.

#### 4.11 Trade debtors and other trade receivables

The Company has established criteria for providing credit to clients which are generally based on the size of the customer's activities and an assessment of the relevant financial information. At each reporting date all overdue or doubtful debts are reviewed so that it is decided whether it is necessary or not to make a relevant provision for doubtful debts. Any write-off of trade debtors' balances is charged against the existing provision for doubtful debts. The credit risk arising from trade debtors and cheques receivable is limited, given that it is certain that the amounts will be collected and appropriately capitalized.

Analysis of trade debtors and other trade receivables is as follows:

Trade Debtors and other trade receivables (amounts in euro)	THE GROUP		THE COMPANY	
	30/06/2022	31/12/2021	30/06/2022	31/12/2021

#### Common Bond Loan

On August 6, 2018, a Common Bond Loan agreement of eight year maturity regarding a maximum amount of up to € 200 million was signed between the parent company and a credit institution and the issue was finalized in November 2018. The interest rate on the loan was set at six month EURIBOR plus a spread of 2,75% while in November 2019 the spread was reduced to 1,95%. The purpose of the above loan was to refinance the common bond loan of € 145 million, issued on 21.05.2014, as well as to finance the company's capital expenditures.

The Company and the Group classify bank deposits with a maturity of more than 3 months as "other current financial assets". These deposits are highly liquid, readily convertible into cash without being subject to a significant risk of change in their value or giving rise to a significant cost in the event of a premature termination before the end of the contract period. For this reason, they are included in a distinct line in the cash flows of the Company and of the Group, as they are considered as directly available.

## 4.26 Contingent Liabilities / Contingent Assets

### • Contingent liabilities

In the closing period, the Group has granted letters of guaranty to third parties as security for liabilities of € 23 k. (01.01.2021: € 23 k). This amount concerns the Company.

The non-cancellable lease agreement as of 8.7.2011, as amended on 6.7.2012, which concerns the lease of property by the Bulgarian subsidiary "JUMBO ECB Ltd", provides that the lease initially expires on May 28, 2023, while the lessee has undertaken the obligation to extend the initial duration of the lease for an additional twelve (12) years, i.e. until 28 May 2035. The third contracting Cypriot subsidiary of the JUMBO TRADING Ltd Group has provided a guarantee for the good-faith compliance of JUMBO ECB Ltd with its lessee's obligations, deriving from this lease agreement.

Specifically, the potential obligations assumed by JUMBO TRADING Ltd as guarantor and co-debtor under this contract against the obligations of the lessee JUMBO ECB Ltd, include on 30 June 2022:

1. Guarantees of a total value up to the amount of € 1.583.000 plus VAT for ensuring the payment of the remaining current lease obligations until the initial expiration date of the contract (i.e. until 28 May 2023), in case the lessee - JUMBO ECB Ltd - does not proceed with the payment.
2. Guarantee of a total value of € 10.125.000, without VAT, in case JUMBO ECB Ltd does not extend the lease contract in 2023, so the latter has the contractual obligation to purchase the leased store and the property, over which the store is constructed, for an agreed price of € 13.500.000 without VAT, payable either full in cash or as follows: a) the amount of € 3.375.000, without VAT, at the time of signing the acquisition contract in 2023 and b) the remaining amount of € 10.125.000, in three equal annual installments of € 3.375.000 each, payable on June 30, 2024, 2025 and 2026 respectively.
